<p>NPT SGT DAYS 20/9/18</p> <p>Flash review:</p> <p>This is the same group that were earlier at Picket Twenty. Approximately 15 vehicles with Caravans.</p> <p>Location This is currently a low impactive location within a new development at Andover Business Park Sited at the end of a no through road, away from residential properties. No damage has been caused to access the location. Nearby business site has been updated - they have a security management company who have arranged extra staff for their site this evening.</p> <p>Land Owner for this location is [REDACTED] Contacted via [REDACTED]</p> <p>[REDACTED] have already instructed Bailiffs [REDACTED] to attend and evict the encampment. This will either be done at 1900hrs this evening or first thing tomorrow morning.</p> <p>Log entry:</p> <p>The Encampment The occupants have indicated that they will be staying in the area until Sunday, when they plan to move to Oxfordshire.</p> <p>One reason offered to remaining in the area for the next couple of days is that a child is currently receiving medical treatment for a leg injury at Charlton Hill Surgery, Andover - a follow up appointment has been made with the doctor on Friday 21st September. It has not been possible as yet to ascertain details for any of the many children at the site</p> <p>Test Valley Borough Council - will be updated this evening by CI Thorne and a request for TVBC to attend to means assess occupants of the site.</p> <p>ACTIONS:</p> <ol style="list-style-type: none"> 1. Vehicle details to be added to this RMS 2. [REDACTED] to be contacted to confirm when they will be acting and request made if the eviction action can be delayed if possible until Sunday. This may prevent the encampment relocating from the low impactive site to a higher impactive site within Andover. 3. Regular Patrol of site where resources permit. <p>PS 21482 Thorne</p>					
Inspector review	20/09/2018 16:48		#20000 TAYLOR, C.	No	
<p>Information and Intelligence:</p> <p>I have attended the site today. There are currently 21 vehicles and 15 caravans on site. Around 30 ? 40 adults and 15-20 children. This is an unauthorised encampment.</p> <p>The encampment is on an un-adopted dead end road owned by [REDACTED] At night the road would normally closed off with temporary Harris fencing. Group have previously had 3 section 61 notices served in the past week in Hampshire. Section 61 not made out at this site at this time. Civil action being taken. The land owner has not yet asked the group to leave. There is no obvious disruption to the [REDACTED]</p> <p>We have had no reports of damage or any offences. There is no evidence rubbish and waste deposited on site at this time. I have asked the group not to use their quad bikes, which they have agreed to do. No aggression was show to myself and officers, which is a big improvement from the earlier sites. James Evan was arrested for an unconnected fraud by APS Warner, supported by myself and PS Thorne when we sighted him leaving the site 44160352755. He was safely followed and detained.</p> <p>Threat Assessment:</p> <p>Threat to environment ? Low ? The area is surrounded by scrubland and a boundary with the Army HQ.</p> <p>Threat to local community ? Low - local communities tend to become apprehensive around what might happen when an unauthorised encampment. This site is not near to any residential homes. There is a concern around Op Liberal (rouge traders) type offences which have been linked to this group. The wider local community may be unhappy if they do not see any enforcement action. These concerns will need to be managed. Police powers, action taken by the landowner and the issue of proportionality may need to be explained to local residents.</p> <p>Risk to police remains the same ? Medium ? This group have demonstrated aggression and made threats of violence to officers during the 3 previous encampments.</p> <p>Working strategy:</p> <p>The working strategy is to reassure the community, prevent crime and manage the removal of the unlawful encampment & avoid problematic displacement to another area.</p> <p>As far as is reasonably practicable, to balance the needs of the landowner to peaceful enjoyment of his land with those of the travellers to have a place to live for a temporary period and the rights of the wider community, bearing in mind our obligations under the Human Rights Act 1998.</p>

Consider Powers and Policies:

Op Quebec is the Hampshire Constabulary response to unlawful encampments. Relevant legislation includes the Human Rights Act 1998 and s61 of the Criminal Justice and Public Order Act 1994.

Options and Contingencies:

Invoke powers under s61 to require the travellers to leave.
Manage the site under tier 2 of Op Quebec.
Do nothing to deal with this issue.
Allow the landowner to complete the eviction process.

Action

At this time section 61 is not made out.

██████████ have already instigated legal proceedings. They state this will be tonight. I cannot believe this could happen so quickly, but will update A/Insp Prior (R&P) later to monitor and update Silver if required.
I have consider the welfare of the group including the children. Today is the first time we have has a civil engagement with the group. If we can build on this over the coming days we can consider recording all the children's details and consider and PPN1.

Actions ? completed

C/Supt Masson updated (Silver) and District Commander C/Insp Thorne.
Corp Coms updated
Landowner, Army HQ and TVBC notified
C58 complete

Actions ? to be completed and recorded onto RMS:

Regular patrols by NPT and R&P (on R&P handover document)
Review at Test Valley DMM 21/09/18 but will now be treated as a Tier 2.

NPT SGT UPDATE 20/9/08

I have spoken with ██████████, his team have visited the site this afternoon, eviction papers have been served requiring them to leave by 7pm this evening.

The bailiffs will return tomorrow to evict them if they have not moved on.

The bailiffs plan to have the site vacated by tomorrow evening to resolve the situation for ██████████

Log entry:

I have passed the RMS number to ██████████ and asked that he update CWUN tomorrow so that we can monitor where the group are likely to go.

I won't repeat Insp TAYLOR or PS THORNE'S summary, detailed below.

However, I attended the site earlier, and have completed the C58 form so far as possible, leaving the decision making sections blank (though I note that Insp TAYLOR has already indicated in his review that s61 has not been met at this time).

Log entry:

I have also advised the Lates R&P PS, PS JACKSON, and requested that he update the R&P handover log with details of the new encampment for monitoring and overnight patrols.

My attendance on site was captured on BWV, which I have saved to the DEMS server.

I have visited the site and have spoken to at least 4 of the male travellers. They all informed me that they have been given notice to leave at 1900 hrs by the bailiffs. They state they will go but not until their associate is released from custody (the male arrested for an Op Liberal offence). They asked for an update and I obtained a mobile number for the DPs partner - IVY ██████████ and explained I would find out and let her know.

Log entry:

I then visited the site next door to the travellers location - ██████████ - and spoke to ██████████ senior construction manager. He was a little anxious about his site as he did not have 24/7 security on site (has motion sensor CCTV linked to a control room). They have numerous construction items/scrap metal that is visible from the road. I've provided a marked police car to be parked at the location overnight hopefully as a deterrent if the travellers do not leave. This is the NPT car and I have marked up on the vehicle board. It can be collected in the morning. The company will have a mobile security unit and dog van patrolling overnight (every hour) and would appreciate visible police patrols. I've explained this has been passed to our teams, which he was appreciative of

I will give ██████████ a call/text as soon as they have left to provide reassurance. The travellers stated they will be leaving the area allegedly to LONDON but they have told another officer OXFORD. Whether it was wishful thinking, the travellers did look as though they were preparing to leave. All the males were on site; they were filling water butts/canisters and there just appeared to be alot of

activity going on.

I have since found out the arrested male is going to be released RUI and I have updated IVY with this information

I will stop by the location later on this evening, if we have had no update in regard to their movements. ideally I would like a local unit to keep an eye on them when they do move so we have an idea of where they are heading.

Hi Nicola

Thanks for the call, the onsite security at the gate house is [REDACTED] As requested I am attaching the extract from Halsbury's Law's of England which sets out the Common Law Power being used and which is used by us about 70 times a month throughout England and Wales, although not Scotland as they have their own way of doing things up there, as you probably know. The wording is quite quaint in places as evidence of the age of the Common Law under which, as you know, you make the charge of murder.

Log entry: I can confirm Notices were served on the travellers about 4pm this afternoon by our staff and they required their departure by 7pm today and subject to the travellers not leaving overnight I anticipate our team will be on site by about 9-9.30am tomorrow morning. We will update your log with the name and contact telephone number of our lead agent prior to arrival although you can also always reach us on the number you called earlier.

Inspector review 20/09/2018 23:42 #140 PRIOR, N. No

On advise of Supt Masson, police car was moved from the [REDACTED] sitel. I checked the site a number of times over the evening with no concerns. About 20 mins after the police car was moved, the security gates at the [REDACTED] site were flattened. It is possible this was down to the strong winds. I checked the site and could not see anything obvious. Messages left with the remote security CCTV company and senior site manager. I also spoke with the business park security who were going to try and re-erect the gates. The gates are made up of a number of harris fencing panels on concrete blocks with a combination padlock [REDACTED] so it is possible the bad weather blew them over or someone has reversed into them as the gates are right beside the first travellers caravan with not much of a turning circle.

I spoke with the Bailliff Company based in Bedfordshire - they have provided documentation in regard to the powers they used (attached to this occurrence). They do not have to go through the courts, and a written notice is not legally required, however on this occasion paperwork was provided

Log entry: They have dealt with this group before in Haywards Heath, Sussex. From their experience they expect them to remain overnight. They will make contact with site security at 0830 hrs to see if they are still in situ, if they are they will attend aiming for 0900 hrs. The bailliffs are made up of ex/retired police so hopefully they will be a sensible bunch.

The traveller that was arrested, has been released RUI and has returned back to the site.

My last visit was around 2130 hrs and majority of the travellers have settled down for the night.

Officers have been at the site with Baillifs all day, however, the baillifs were clearly not in a position to execute the eviction due to their numbers and the number of tow trucks available.

There has been considerable negotiation between baillifs and travellers throughout the day, with the travellers looking for another site to move to. I know that they looked at Thruxton industrial estate but felt that was not suitable to their needs.

The main man on site, known as Crimea or similar, made it clear to baillifs and police that he intended to remain on site until Sunday and gave assurances to baillifs that the group would be gone by end of play on Sunday.

Despite the prolonged negotiations the travellers have not moved on.
Police resources have resumed and the baillifs will remain until 1800.

Log entry: As things stand there is a plan for the baillifs to return on Monday 24 September and they have again asked for our assistance. That request has been discussed with CI Thorne, with a view to securing additional resources via Force GRIP. However, the baillif company will only commit the same number of baillifs [8] to any activity on Monday. Given that there are somewhere in the region of 30 adults plus children on the site it is deemed inappropriate for the baillifs to attempt a resisted eviction with those numbers and they have been advised that we won't be providing enhanced resourcing.

As things stand there are around 10 NPT officers potentially available for Monday, but our role will be the same on Monday as was the case today: to prevent a breach of the peace and withdraw if the baillifs are met with resistance.

There remains some chance that the group will move off by Sunday.
The site, as it stands, is relatively easy to police: there is no real local impact, other than to the construction site and no passing traffic.

Police were contacted by [REDACTED] confirming that he believed that the travellers were leaving the site; and their convoy was causing issues with delivery lorries, a further call came in and said that drivers were shouting at each other.

Log entry: We attended the site ten minutes later after the first call, the travellers had all left, and the site was captured on body worn there is a lot of rubbish left on the site, bits of rubbish, toys etc. The original informant was spoken too and he confirmed he was not caused any HAD and they were just happy that everyone had left and the only items left were rubbish. There is no idea where they were travelling too.

Sergeant review: 22/09/2018 13:56 #3664 MACDONALD, C. No

Log entry: Site is clear and no onward location / DOT.
No damage caused.
No offences,
please file NZ.

Date:	20/09/2018
Location:	0 PIONEER ROAD, ANDOVER (road adjacent to the Co-op Distribution Centre)

Number of Persons on Land:	Multiple adult males and females on site (details refused). Approximately 16 children on site.
----------------------------	--

(include if 2 or more and intention is to reside on land)

Number of Vehicles:	Approx 15 caravans & 20 vehicles
---------------------	----------------------------------

Conduct PNC checks of vehicles and list in the 'vehicles details' section at the end of this form.

Damage caused to gain entry (include details and any evidence of identity of offenders) or damage to land or property on it:
Nil

Name the Landowner:	[REDACTED]
type of land use:	Private

Has the landowner been contacted? What are the landowner's views? Request to leave made or permission to stay given?
Yes - the landowner has been spoken to by PS THORNE over the phone. They have already spoken to their bailiffs [REDACTED] who have indicated an intention to attend the site at either 1900hrs tonight or first thing tomorrow.

Have the trespassers used threatening/abusive/insulting words or behaviour to the occupier of the land or a member of his family or employee or agent
No

Is the encampment in a dangerous/unsuitable position?(side of a busy road, hazards etc)
No - encampment is on a no through road next to commercial premises. There are no nearby residential properties.

Other environmental issues (potential for disorder, interference with use of land/amenity).
Vehicles are parked up on a private road and the adjacent verges. The land is not yet fully developed, or in use, however there is a nearby construction site, and representatives from here have been spoken to. They have increased their security presence immediately and have been advised by Insp TAYLOR not to lock the site gate this evening. The security manager for this nearby business is [REDACTED]

rubbish left at the previous site, and the need to ensure the site was kept clean and tidy. They maintained that they would do so, provided they were given a supply of bin bags to use. It was acknowledged by the group however that not everyone on site has the use of a toilet and, therefore, it is likely that a minority of people will make use of the hedgerows etc to relieve themselves.

Also present on site were a number of dogs, some tethered, others loose, and a number of caged chickens. I did not see the goat on this occasion. The animals appeared to have access to water and shelter.

Details of Local Authority

TVBC, though NB this is privately owned land.

Point of contact within Local Authority

N/K - however I note that CI THORNE plans to speak to TVBC this evening to update them and request their attendance on site.

Have HCC Gypsy and Traveller Liaison Officers been contacted?

[REDACTED]

Not at this time.

Has a welfare assessment been made by Local Authority? No

Number of children on site, include ages: Approximately 16 - ranging from baby to teenagers.

Number of persons with welfare needs include names and details (e.g. *pregnant, elderly, infirm*)

The group were not keen to pass their details, so a full assessment has not been possible. However, when asked, one gentleman stated his partner was pregnant and needed to make a midwife appointment. Another female stated that her 11 year old son had a bad leg infection and was receiving treatment at Charlton Hill surgery, needing to return tomorrow. Another male suggested his 1 year old baby was also sick and receiving treatment locally.

What is the intention of the group
(Proposed duration of stay)?

The group intend to stay until Sunday when they "may" go towards Oxford

Where were the group before they moved here? Picket Twenty, Andover

Force Silver must be advised, if the criteria is met for an unauthorised encampment. (See Appendix D of Quebec Management Process guidance document on the intranet for full details.)

COMMON LAW POWER OF A LANDLORD IN RELATION TO TRESPASSERS ON LAND

Expulsion

If a trespasser peaceably enters or is on land, the person who is in or entitled to possession may request him to leave, and if he refuses to leave, remove him from the land using no more force than is reasonably necessary. **This right is not ousted if the person entitled to possession has succeeded in an action at law for possession but chooses not to sue out his Writ.** However, if a trespasser enters with force and violence, the person in possession may remove him without a previous request to depart. An owner of property is also entitled to take reasonable steps to prevent trespassers from entering his property. If the force or violence used in turning out a trespasser is excessive, the person who uses such force himself commits a trespass upon the person of the person removed. To justify the expulsion of a trespasser, the person who uses the force must be in possession or acting under the authority of the person in possession. If a trespasser erects a building on the land of another, the person who is entitled to possession of the land may pull down the building, even though the trespasser is in it.

PC 25619 BENDALL and PC 27238 JONES attending the site at around 2200hrs. The site was clean and there was no damage to the land or anything on it.					
There have been no reports of disorder in relation to the site being set up.

The occupants were police and good natured, and happy to discuss their presence and plans with the attending officers.

The site at the time of our attendance was clean and tidy. There was no damage to anything on the land that could be seen at the time and there was no rubbish or other environmental issues at the time.

the site consists of 7 caravans, with a mixture of adults and children though exact numbers are not known.

No photographs of the site were taken as there was no ambient lighting and the phone cameras were insufficient to capture the area. PC BENDALL and PC JONES can provide statements as to the state of the land should this later be required.

The site is in a residential area, separated from the road and using around 20% of the area of the playing field. There are no other obvious hazards that would make this an unsuitable or dangerous location.

I have completed the basic sections of the C58 ready for an inspectors review.

21/08/2018 04:11 #2110 BREARLEY, M. No

I have been made aware of this Op Quebec travellers site in Andover.

I note the OEL entry from PC Bendall. I have viewed the C58 but note that it is blank. PC Bendall to recomplete.

The site was attended by PC Bendall and PC Jones at 2200 hours last night. The site consists of approximately seven vehicles with adults and children.

The site is clean and tidy and no evidence of any damage caused. The travellers were polite towards police.

Due to the C58 being blank it is not clear who owns the site.

There have been no reports of any community tension. CIA not required.

For discussion re ownership at this mornings DMM.

This seems to be the same group that have recently left Smannell Road. The group are polite, tidy, and have not caused any issues thus far. The site will need reattending in daylight to take vehicle details, speak to the group and take any photos if necessary.

Call from [REDACTED] who owns the [REDACTED] and he is reporting that there are travellers at the location and says he feels as if he can not open [REDACTED] nothing has happened, he says he just feels concerned. I had created Altaris #162 before realising we already had the details and have already attended so noted on here just for awareness.

Call from [REDACTED] on 21st August @ 0845hrs - [REDACTED] stating aloud of travellers have moved onto the field [REDACTED] advised Police are already aware and dealing.

[REDACTED] wanted to know how long it will take for the Travellers to move off the field and asked for an Officer dealing to make contact with him.

Call received from [REDACTED] - he wanted to know what is happening re the travellers on the site. C/taker advised re it being a Civil matter and the landowner needing to take action. He stated he was fully aware of that and that Police had been to the field on two occasions - advised Ppolice dispatched to check where the trespass is taking place and to take details of vehicles parked.

He said he had been to the Council and they stated that the Police could take action under Section 61 and he wanted to know why that had not taken place- also the council were on their way to take registration numbers so doesn't believe Police have taken this information.

He stated that to gain access they would have had to cause criminal damage and why were Police not doing anything about that. Also the vehicles are not taxed why are they not being impounded advised that that would be DVLA and also on private property, he said well they hadn't flown there...

[REDACTED] then said that the travellers being there impacted on dog walkers and children playing did that not impinge on their Human Rights?

[REDACTED] advised that a request would be sent to local station for him to be contacted. He asked if that would be today and advised that is not something the c/taker could guarantee.

21/08/2018 14:02 #27517 ROYSTON, O. No T1801551711 For your attention Closed

I have attended the Op Quebec Site, Saxon Way and spoken with the occupants of the caravans and local residents.

It appears that the encampment is consisted of two families, the LOVERIDGES and the STEVENS, and there were a male and female with the surname of [REDACTED] In total I believe there are 12 adults and 7 children/toddlers. None appeared in need of any intervention, the whole group were polite towards me and claimed to be born again Christians on route to Swindon to attend the Light & Life Mission which is part of the Light & Life Gypsy church.

Having Googled this movement, it does indeed appear to be a genuine concern with registered charity 1046401.

They stated that they intended to stay at the location in Saxon Way for between five and seven days and would be headed into Wiltshire once moving from this location.

A local shopkeeper - [REDACTED] had decided to not open due to the presence of the travellers. This has caused some upset to the travelling community who stated they did not wish to cause him any harm and bother and feel victimised by the shopkeeper. Having returned to TA and entered the RMS details of all parties present, the vast majority are not known to police and I can understand why they felt victimised by [REDACTED] actions however I can also empathise with the Shopkeeper who runs a small family run store and is wanting to protect his family and his stock from what he perceives to be a potential threat.

Log entry:

I spent around two hours liaising the [REDACTED] and the members of the community and managed to come to some middle ground where the shop would open (for the sake of the regular community) and members of the community would be allowed in one adult and a time. I explained to [REDACTED] if he were to feel threatened or an incident take place then to call police and relevant 999 and safeguarding advice was given.

There were at least two flatbed trucks that left after I had spoken with all the occupants of the site. SINES landscaping was branded on one and D&S Landscaping on the other.

The community asked me to visit a couple of local houses as although they recognise they are likely not wanted by the local community, they also do not want to feel victimised and in the past had previous local occupants call them things such as "dirty pikey's" and would like local residents to treat them with some respect. They have also offered to have tea and coffee with local residents who want to know more about the Traveller community and/or those who want to know about the Light and Life Christian movement. I have spoken to a couple of local residents and updated them of the intentions of the travelling community and hopefully put their mind at ease somewhat.

The travelling community were left, they were polite and well natured towards me and suggested they would continue to make Andover police welcome whilst they were in Hampshire.

TVBC were also in attendance and sent officers from the welfare service to ensure the safety of all in the encampment. They also sent [REDACTED] from the Communities and Leisure Team who informed them they were trespassing and asked them to leave.

I have received the following email from [REDACTED]
Hi Oily

Log entry:

No problem. We are looking at whether we can use Common Law and seek possession of the land with immediate effect giving 3 hours for them to leave. If they fail to vacate bailiffs will be instructed to attend site tomorrow. If we do this would you or any of your colleagues be available to attend site with us?

Many thanks

Operation Quebec Review

Information

Please note the attached C68 and OEL as completed by the attending officers. Inspector BREARLEY made an initial base review on the limited information to hand. I have followed that with this review.

I have been unable to visit this site this morning personally, however there have been a number of attending Police and local council. I also note that these travellers are the same as the ones recently encamped locally within Andover.

PC ROYSTON has attended the encampment and spoken to the travellers, as well as gaining the required details. I understand there are 6 caravans and 7 vehicles, with approximately 20 people living within them. The site was noted to be clean and tidy. They are currently occupying a small portion of the land/green which is estimated to be around 20%. He also informed me that local council was already on scene and that he had additionally spoken to a number of the local residents, including a local shop owner. PC ROYSTON will add full details to this occurrence ASAP.

There was a fairly prompt police attendance to the reports of the encampment and there was no reports of any community issues overnight. I note that we have had 3 calls to Police reference the encampment from a shop owner and two local residents. At this time however this is for information only and no offences have been disclosed or witnessed. It was noted that as the travellers had been at another encampment in Andover recently, they had caused no issues there and had left the site clean and tidy. There is nothing to suggest they will not do the same at this site.

A Critical Incident is defined as:

??any incident where the effectiveness of the police response is likely to have a significant impact on the confidence of the victim, their family and/or the community?.

There would not appear to be any significant impact on the community and no information to suggest that any MOP are adversely affected. Therefore at this time I do not at this time consider this as a CI.

Working Strategy

- ? Minimise need to use police powers by encouraging landowner to seek legal recourse.
- ? Use police powers when assessed as being proportionate, lawful, appropriate and necessary
- ? Open and maintain dialogue with all communities involved.
- ? Monitor community tension.
- ? Maintain the confidence of our communities through good communication, explanation & balancing rights of all involved.

Powers & Policy

- ? S61 CJPO
- ? Op Quebec / FPP
- ? Code of Ethics / CARE values.

Log entry:

The ACPO Guidance on Unauthorised Encampments gives suggestions when this may apply:-
???.. The lead role in the management of Unauthorised Encampments will be with Local Authorities. Forces should consider becoming involved in bringing about the prompt and lawful removal of unauthorised encampments, including the use of police powers under Section 61 or 62 of the Criminal Justice and Public Order Act 1994 where:
I. Local amenities are deprived to communities or significant impact on the environment. - No
II. There is local disruption to the economy. - No
III. There is other significant disruption to the local community or environment. ? Some community tension to local residential community, but I do not consider it is significant.
IV. There is a danger to life. - No
V. There is a need to take preventative action. This might include where a group of trespassers have persistently displayed anti-social behaviour at previous sites and it is reasonably believed that such behaviour will be displayed at this newly established site. ? No

In these circumstances Section 61 CJPO is not deemed appropriate (or lawful) and therefore management of the policing incident now rests with Andover District Commander at Tier 2 ? Operation QUEBEC Management Process?.

Actions

This should be completed through the DMM process and will include local crime and disorder management, management of offenders (if applicable), impact on local events and communities, etc, etc.

1. Notify Hampshire GLO [REDACTED] of the encampment.
2. NPT has been notified of the encampment. Insp 20000 TAYLOR is liaising with the local district council.
3. Neighbourhood teams to identify suitable communication with settled community & users of site & for there to be exchange of information.
4. Increased high visibility patrols of the area by NPT and R&P.
4. Ensure discussed at DMM 22nd August and also force GRIP is updated at 1600hrs today.

This assessment should be reviewed periodically as new intelligence or information becomes available. If numbers at the site significantly increase then contact Duty Inspector for further instruction.

Log entry: I have read the update about the local authority saying the police won't move the travellers on because of a lack of resources. This is not the case and we have never told the council this. The council are aware that the responsibility for moving an unauthorised encampment is done in partnership and if the grounds for a S61 notice are not met the police will not issue one. The council will then need to seek an injunction through the courts to move those unlawfully camped on. The situation is reviewed regularly and if the grounds then do exist for the police to issue a S61 notice it will be issued.

Log entry: I have visited the site this afternoon in an unmarked car and did not make myself known. This a moderate size encampment. It is a box type formation on the green. The group have set up washing lines in the trees. There are several garden services vehicles and wood chippers. There is no obvious signs of waste, dogs or ASB. The Premier Stores was open.

Number of Persons on Land:	20 including toddlers and babies (include if 2 or more and intention is to reside on land)
----------------------------	---

Number of Vehicles:	6 vehicles, 7 caravans (all vehicles now listed on the RMS)
---------------------	--

Conduct PNC checks of vehicles and list in the 'vehicles details' section at the end of this form.

Damage caused to gain entry (include details and any evidence of identity of offenders) or damage to land or property on it:
There has been no known damage caused to gain entry to the field.

Name the Landowner:	
type of land use:	Public

Has the landowner been contacted? What are the landowner's views? Request to leave made or permission to stay given?
██████████ were on site when I arrived the following morning after the encampment was set up. ██████████ is point of contact. He has asked them to leave and advised they are trespassing on ██████████. He has made efforts to enquire whether ██████████ can use a Common Law Power and seek possession of the land with immediate effect which would give the occupants 3hrs to vacate. If this is not possible they will seek power to take back control of the land through the court.

Have the trespassers used threatening/abusive/insulting words or behaviour to the occupier of the land or a member of his family or employee or agent
No

Is the encampment in a dangerous/unsuitable position?(side of a busy road, hazards etc)
No - field in residential area, surrounded by restricted speed roads. No other hazards in area.

Other environmental issues (potential for disorder, interference with use of land/amenity).
Site is preventing use of some of the field. The site occupies about 20% of the total area of the public field, but the rest of it is clear and undisturbed. So far, there has been no disorder and no community issues reported. Police were well-received by the occupants, who were happy to discuss their presence and intentions. The site was clean and tidy on attendance with no visible signs of littering or damage to the land.

#140 PRIOR, N.

No

Log entry:

Ive been made away of the Op Quebec site. Please ensure a C58 is completed at the earliest convenience. Im told there is no damage to the gate that was entered and no obvious sign of rubbish/ASB behaviour, however due to it being in the middle of the night, everywhere was dark. We have 4 vehicles and 4 caravans at this time. I will ensure the 0930 GRIP is made aware and the NPT supervisors as its very likely this will be a Tier 2 encampment

Enquiry log 12/08/2018 02:33 #21310 STINSON, P. No T1801494170 Init rpt Closed
 4 caravans and associated vehicles have pitched on the site gaining access via the Salto lane down onto the playing fields. Intention is to stay for as long as possible.
 Log entry: The route in and out is via footpath which is not a highway or bridleway or vehicular access.
 Test Valley Council have been updated with our reference number and advised that they will need someone to attend the site, which may not be until Monday but will try to get someone there Sunday.

Sergeant review 12/08/2018 02:40 #3354 JACKSON, S. No
 Site attended, no photos taken due to darkness. Added to Sgt's handover for days to attend.

Log entry: PS 3354

Enquiry log 12/08/2018 02:42 #27626 DIAPER, L. No
 The CAD mentions damage to a lock in order to gain entry. At this time it is not clear as to whether the gate was locked or whether any damage has been caused. I have therefore classified this inc as NZ until a criminal damage has been confirmed.

Log entry: Picture of gate taken.

Sergeant review 12/08/2018 07:52 12/08/2018 07:52 #3552 KNIGHT, R. No
 PC TRIBE has been tasked days to pay a visit to the site and check for any changes in vehicles and to ascertain about mention of the lock etc.
 Log entry: T/PS 3552 KNIGHT

Inspector review 12/08/2018 09:44 #27563 HARVEY, N. No

I have reviewed this encampment from the point of view of ascertaining if there is sufficient reason to ask for authorisation to require the travellers to leave the site.
 I have used the National Decision Making Model to assist in my decision making.

Use of S61 CJPO Act

There are sufficient vehicles present (over 6). 8 in total. 4 Cars, 4 Caravans
 At this time I cannot see that any damage has occurred. There is mention of a gate being broken but there is no evidence of this. A padlock may have been cut but this will need to be confirmed in due course.
 The owner of the site is [REDACTED] No formal request has been made by them for the group to leave.

Information and Intelligence:

Police were called at 21:30hrs 11/08/18 by [REDACTED] who works for TVBC out of hours. [REDACTED] advised that a number of travellers had arrived on the fields next to the Charlton leisure centre. There were a number of calls from local residents stating the same as the original informant.
 Police attended however it was dark and the true extent of the encampment wasn't clear. A C58 form was completed but the encampment is being revisited this morning to see if anything has changed. The travellers stated they intended to stay as long as possible.
 Police spoke to TVBC last night and the update was no one would be attending at that time and it may be Sunday or Monday. At this time it appears no formal request has been made by the landowner for the group to leave.
 From RMS the vehicles that we have identified are linked to other unauthorised encampments and appear to move around the Andover area when the council serve court papers on them.
 Police re attended on 12/08/18 and the group are tucked away in a corner of the land, there is no mess and they have stated they will be leaving on Monday night.

In reviewing this matter and making my decision, I have considered the following issues during the Tier one stage:
 Log entry: i) Local amenities are deprived to communities or significant impact on the environment. - **Not evidenced.**
 ii) There is local disruption to the economy - **Not evidenced.** There is no info that suggests the leisure centre has to close as a result of this
 iii) There is other significant disruption to the local community or environment. - **Not evidenced**
 iv) There is a danger to life. - **Not evidenced**
 v) There is a need to take preventative action. - **Not evidenced.**

Assess Threat and Risk: Develop Working Strategy.

At this time the threat caused by this group is LOW -
 My working strategy would be
 To develop to a response whereby the needs of all are met.
 To minimise the risk of harm to public/travellers/Police
 To develop intel in order to further assess the Threat / Harm / Risk.
 To secure and preserve evidence in relation to any offences.
 To maintain trust and confidence in Hampshire Constabulary

Powers and Policies:

Human Rights Act particularly articles 2 Right to life, Article 8 Right to respect for private/family life, to be considered with regards to all police actions.
 S61 Criminal Justice and Public Order Act 1994 relates to the issue of unlawful encampments on land by trespassers - this legislation provides police with powers to deal with this issue.
 Op Quebec is the current Hampshire Police operation to deal with this issue.
 Criminal Damage Act.
 SAFER values.

Identify Options and Contingencies:

The first option is to allow the land owner to continue / start their eviction process and for police to monitor the site.
 Second option is for police to do nothing further.
 Third option is for police to issue a notice to the travellers on the site to quit after a reasonable period of time in line with S61 Criminal Justice and Public Order Act 1994.

Hist - RESTRICTED

If they move to a new piece of land that is less suitable, then there will be a need for police and the landowner to discuss this issue all over again and consider the need to take further action.

If they move to a new piece of land that is less suitable, then there will be a need for police and the landowner to discuss this issue all over again and consider the need to take further action.

Contingency – should situation change and high level of ASB / Crime start to occur then Insp review required with a view to implementing CJPOA powers once a Public order TACAD has been consulted, appropriate staff sourced and command structure set up.

Action and Review:

I have not attended the site as this incident came in last night and Supervisors attended.

At this time I cannot justify an immediate S.61 dispersal as the elements of S.61 CJPOA have not been met coupled with the aggravating factors. The act requires one of three triggers for the use of the power, that is either damage to the property, the use of threatening, abusive or insulting words or behaviour towards the occupier, a member of his/her family or an employee or agent, or the presence of six or more vehicles on the land;

We have the required number of vehicles but the aggravating factors are not present at this time. Nor has the land owner made a request of the group to move meaning a vital part of the legislation has not been met.

The following is to be completed

1) The landowner needs to be contacted and consulted as to action they are going to take. I propose that options 1 is the best way forward and that the land owner starts their own eviction process.

2) HCC GTLO's need to be advised. This is [REDACTED] but HCC need to be informed as they have an overview of the county.

3) Matter to be passed to district to manage. Joint visit with TVBC GTLO so request to leave as well as welfare visit can be carried out.

This is now a tier two operation Quebec to be managed by the District Commander. R+P will support and complete checks on the site each shift to monitor tension, ASB and environmental impact. Should S.61 powers be used R+P will assist with coordination of resources

It appears as if this new site at Charlton has links to a previous site at Old Down Road in Andover. Can this be confirmed with a visit to the old site?

Log entry: One of these vehicles has been linked to a Op Liberal series in Charlton this week. A letter drop and social media update has been provided to provide advice to residents about cold callers. TA NPT have minimal resources today but this will be raised at DMM 13/09. PS 3664 MACDONALD

Attended site this morning around 0930 -hours, there is 4 caravans and 4 vehicles all as per the updates yesterday. The site is clean and unobtrusive to the main playing fields, they have tucked themselves away by the lake side accessed near to the crazy golf. They have bags which the council have supplied for their waste, and they appear to be using them. I spoke to male on location, they have moved there from the other site after another fraternity of travellers have set up camp over them and abused the site they were on. They are planning to stay until Monday evening as it stands, and were polite and cooperative. There is no sign that damage has been caused to access the location which is the gate from CHARLTON ROAD which is insecure but no clear sign of damage.

Call into CMC from [REDACTED]

He wanted to make Police aware that at Charlton Lakes there are several caravans set up, which he believes were aware of. However today he has been at Charlton Lakes at approx 1315hrs and he states that the occupants are driving their cars down the pedestrian and cycle paths to gain access to the caravans. They are driving at quite some speed and at one point one of the drivers was texting whilst driving. Inft states it is extremely dangerous as there are lots of children nearby, this is right next to the child's play area and there are children on bicycles that could easily be struck.

Log entry:

Advised we were aware of the encampment and that I would update officers dealing regarding the driving he has witnessed. Adding to this OEL for info purposes.

Update from TVBC received through email yesterday from [REDACTED]

We have made it clear from day 1 that they are trespassing and do not have consent to remain. Junior football has been cancelled. Notice was served today, but as you rightly point out, they have said they won't move without a court order. We will aim to secure this tomorrow for eviction forthwith – this being the case, a police presence for this being served would be appreciated (we will also seek bailiffs support for immediate action if possible).

NPT SGT REVIEW:

At 1226 hrs today I visited the site. The only access to the location is via a shared footpath/cycle path that runs through the park. It is believe that the vehicles are accessing the site via Charlton Road, passing the Salto Centre Gym and on though a (now open) vehicle barrier. After a good 500 metres the site is in the corner of the main field (between the rear of the Cafe and Foxcott Road).

3 Caravans on site, number plates obscured by personal possessions.

FL59NRJ Black Ford Mondeo - linked to Henry LOVERIDGE and parked next to Mr LOVERIDGE's caravan.

WP52YJE - Ford Transit Flatbed Van, Grey Cab - full of tree cuttings. Registered to Henry LOVERIDGE and parked next to his Caravan

YF17MYN - Ford Transit Flatbed van, White Cab - full of tree cuttings. Linked to Albert BOWERS and Frederick BOWERS

Small Off Road motor cyle - next to LOVERIDGE's caravan.

Log entry:

Mrs LOVERIDGE stated the m/cycle belongs to her Grand Son.

Site remains tidy. There is the remains of a campfire with a quantity of drinks cans and bottles stewn nearby. Mrs LOVERIDGE confirmed that these would be collected and put in the bin before whenever they leave.

Mrs LOVERIDGE stated further that she watched the Park Run yesterday and thought it was lovely. (The route has been changed and diverted so that it did not run straight through their encampment).

No other persons seen or spoken to.

Infnt calling as 4 static caravans have been on the green since at least Monday.

When she was walking her dog today she noticed a large amount of litter and has collected two baskets worth. She has then noticed that they had lit a bonfire around trees. They had clearly used accelerant as the flames where burning the tree leaves, the fire has since calmed down (Infnt is going to call fire to make them aware).

Inft approached two females and in a respectful way mentioned she was concerned about the fire. During the conversation she asked where they got the permission for to be there. The females became verbally abusive telling the Inft that she was being discriminative. "She is ignorant about their ways" "bladey go away"

Inft explained that she is understanding of there ways and did not mean any offence. She is merely concerned about the amount of litter and the fire.

She has also disclosed that they are driving out of the green using the pedestrian path as they have taken the gates of their hinges. When she went in the other day she had to "hammer" her mobility scooter to the side to get out of the way of a dark vehicle.

Inft explained that she is understanding of there ways and did not mean any offence. She is merely concerned about the amount of litter and the fire. She has also disclosed that they are driving out of the green using the pedestrian path as they have taken the gates of their hinges. When she went in the other day she had to "hammer" her mobility scooter to the side to get out of the way of a dark vehicle. I clarified in regard to the conversation if she was caused HAD and she was. She stated that the travellers had moved on and there was no more issues. It has been previously stated that it is not suitable for police to pursue this matter. There are evidential difficulties in that the women cannot be identified, therefore I stated that this incident would be filed.

Has the Victims Code been complied with and is there a Victim Contract Agreement recorded on the occurrence? [Yes](#)

Has an outcome officer been added to the Current police tab? - [Yes](#) [<If not - link here>](#)

Have any other crimes been mentioned during the course of this investigation i.e. on the ALTARIS, in statements, risk assessment etc? [No](#) - If so ensure they are recorded and quote crime number here.

Police attended the site and all was quiet and all older males were sat around camp fire by the side of the caravans, all youngsters most likely in bed. The males had high power torches which they use to walk around the site but had no knowledge of any catapults being used. Advised reference the nature of the call and that Test Valley would be made aware.

Test Valley 24 service called to report and spoke with [REDACTED] and she said she would log the call in the morning with the Council.

Enquiry log	24/07/2018 22:26		#27027 WARNER, S.	No	
	Local residents reported travellers moving onto a new site at the top of Old Down Road, Andover at 15:30 hrs. Police visited the site at 20:00 hrs. The site was clean and tidy, with no piles of rubbish or signs of damage.				
	The land is believed to be owned by [REDACTED] though due to the hour, they haven't yet been spoken to.				
	Albert BOWERS and family were present. They have come from Weymouth and plan to stay for about a week before making their way to Devon. Albert was spoken to about the risks of bonfires given the dry weather, and he confirmed there would be NO bonfires during their stay.				
Log entry:	A number of dogs were seen on site - they had access to drinking water, shelter and shade. They appeared to be suitably under control at the time of the visit.				
	There were no children present, and no vulnerable, pregnant or infirm persons.				
	The number of vehicles present is 7.				
	There are no reports of anti-social behaviour etc or of any persons caused HAD by the presence of the trespassers as yet. However the site is relatively close to local residents' houses/ gardens, which may cause issues over the coming days.				
	C58 completed - APS GOOD advised.

	Incident noted. At this time, the site would appear tidy and in good order.				
Log entry:	A site visit should be repeated in the AM to check the number of vehicles, state of site etc. Please utilise BWV to document this. Contact should also be made with [REDACTED] in order to establish who owns the land and their (landowners) intentions.

	I have reviewed this encampment from the point of view of ascertaining if there is sufficient reason to ask for authorisation to require the travellers to leave the site.				
	I have used the National Decision Making Model to assist in my decision making.				
	Use of S61 CJPO Act				
	There are sufficient vehicles present (over 6).				
	At this time I cannot see that any damage has occurred.				
	As yet the owner of the site is not available, this will be [REDACTED]				
	Information and Intelligence:				
	In reviewing this matter and making my decision, I have considered the following issues during the Tier one stage:				
	1) Local amenities are deprived to communities or significant impact on the environment. -. No. no further calls and no amenities				

Hist - RESTRICTED

Hist - RESTRICTED

disrupted.

- ii) There is local disruption to the economy - No
- iii) There is other significant disruption to the local community or environment. - No
- iv) There is a danger to life. - No
- v) There is a need to take preventative action. - No

Assess Threat and Risk: Develop Working Strategy.

At this time the threat caused by this group is LOW-

My working strategy would be

- To develop to a response whereby the needs of all are met.
- To minimise the risk of harm to public/travellers/Police
- To develop intel in order to further assess the Threat / Harm / Risk.
- To secure and preserve evidence in relation to any offences.
- To maintain trust and confidence in Hampshire Constabulary

Powers and Policies:

Human Rights Act particularly articles 2 Right to life, Article 8 Right to respect for private/family life, to be considered with regards to all police actions.

S61 Criminal Justice and Public Order Act 1994 relates to the issue of unlawful encampments on land by trespassers - this legislation provides police with powers to deal with this issue.

Op Quebec is the current Hampshire Police operation to deal with this issue.

Identify Options and Contingencies:

The first option is to allow the land owner to continue / start their eviction process and for police to monitor the site.

Second option is for police to do nothing further.

Third option is for police to issue a notice to the travellers on the site to quit after a reasonable period of time in line with S61 Criminal Justice and Public Order Act 1994.

Log entry:

If they move to a new piece of land that is less suitable, then there will be a need for police and the landowner to discuss this issue all over again and consider the need to take further action.

Action and Review:

I have not attended the site as I was not advised of this incident until 2245 hrs.

At this time I cannot justify an immediate S.61 dispersal as the elements of S.61 CJPOA have not been met coupled with the aggravating factors. The act requires one of three triggers for the use of the power, that is either damage to the property, the use of threatening, abusive or insulting words or behaviour towards the occupier, a member of his/her family or an employee or agent, or the presence of six or more vehicles on the land;

We have the presence of more than 6 vehicles but there are no aggravating factors that would justify moving a group at night that involves children and also at a time when resources are at their lowest.

The following is to be completed

The landowner needs to be contacted and consulted as to action they are going to take. At this time the land owner has not requested the group to leave so a vital element of the S.61 CJPOA legislation has not been met.

HCC GTLO needs to be advised. I do not see any urgency or need to do this overnight. They can be contacted in the AM when we also advise TVBC

This is now a tier two operation Quebec to be managed by the District Commander. R+P will support and complete checks on the site each shift to monitor tension, ASB and environmental impact. Should S.61 powers be used R+P will assist with coordination of resources

NPT SGT REVIEW:

I attended the site at 0920 hrs. There were 3 Caravans, 3 vans and 1 car. I have also added Henry Loveridge's details to this RMS as he was at the location.

Log entry: LOVERIDGE and the BOWERS (Albert, and Margaret) were all polite and willing to engage.

The site is clean and tidy with no obvious signs of damage to be seen.

One well behaved dog (grey lurcher) under Loveridge's van in the shade - appeared in order.

Very minimal impact on the community, unless any events are planned on the field which is a play area.

I am aware of this encampment as I completed the initial review. At that time S.61 CJPOA was not made out as there were no aggravating factors. I am advised that a further 6 vehicles have arrived at the site and are related to the persons already present.

Hist - RESTRICTED

Hist - RESTRICTED

Based on this info I have assessed if the aggravating factors have changed.

- i) Local amenities are deprived to communities or significant impact on the environment. - Not evidenced. most entries describe site as clean and tidy
- ii) There is local disruption to the economy - Not evidenced
- iii) There is other significant disruption to the local community or environment. - Not evidenced. One mention of a dog howling but this is not overwhelming evidence.
- iv) There is a danger to life. - Not evidenced.
- v) There is a need to take preventative action. Not evidenced.

Having read the updates since my first review I note the council (TVBC) have served papers on the group under S.77 CJPOA on 30/07/18 stating they should leave immediately. It is now 5 days later and TVBC don't appear to have progressed this. There is mention of a court date being set but no updates since. S.77 CJPOA does not require a court to authorise the powers to be used but PNLD is clear in that it is something the council should lead on but Police could act on

Log entry:

**** " (ii) This procedure is a local authority responsibility and the offence of failing to move in subsection (3) is likely to be prosecuted by the authority. However, nothing in the Act specifically excludes the police from reporting or charging an individual with the offence under subsection (3) if they have become involved with the situation.****

With no aggravating factors and an unclear situation regarding what action TVBC are taking there is no justification to seek to invoke Police powers under S.61 or 77 CJPOA. TVBC are to be updated ref the increase in numbers and requested to clarify the latest position regarding court dates and their intentions.

	As a result of some reports of rubbish and dog issues, I attended the site at midday and discussed the dogs on site with some of the residents. On attendance, there were the following dogs on site: 1) Lurcher - Tied up behind electricity box near to pathway to Artists way. Owner Jimmy Loveridge 2) Puppy Chihuahua 'Tiny' - tied up near to caravan of owner, daughter of Jimmy Loveridge. Very yappy and somewhat aggressive. 3) Springer - tied up, no apparent owner. 4) Jack Russell - 'Mini' - owner is Margaret BOWERS. Tied up at this time. She states that he got off the lead this morning and there was some form of run in this morning with another dog but she stated that she apologised and all was good.		
Log entry:	All parties have been advised to ensure that the dogs are kept tied up to prevent issues with any other dog walkers in the area. There was a bag of rubbish next to the fence but this was all tied up and not causing an issue. Hi,
Online Submission: CDS-23684-18-440-000

I would like to update you on the Traveller's activities who encamped on Old Down Road, Andover:

Log entry: Yesterday afternoon, I went out to use my car and found one of the traveller's photographing my vehicle on their mobile, he mentioned that he liked this particular car and asked about the BHP, he then proceeded to take pictures/video? of me driving my car away.
We have also encountered Traveller's continually walking through and around the properties of our estate, they have been looking at the houses and over into the gardens attached.
I am concerned as I will be out of the country for a couple of weeks,
Please update whomever needs this information,

TVBC have matters in hand and they have passed the breach onto their lawyers with a view to obtaining a seizure warrant.
They will update us with as much notice as possible as this will require police attendance if it gets that far.

**Notice of Direction to Leave Land
and to Remove Vehicle(s) and Other Property**
Section 77(1) of the Criminal Justice and Public Order Act 1994

To: all the occupant(s) of land at Old Down Road, Andover, Hampshire

TAKE NOTICE that

1. IT APPEARS to Test Valley Borough Council ("the Council") being the local authority, that you are for the time being residing in a vehicle or vehicles within their area on unoccupied land at Old Down Road, Andover, Hampshire which is marked for indicative purposes hatched in red on the attached plan without the consent of the owner.
2. In accordance with their powers under section 77(1) of the Criminal Justice and Public Order Act 1994, the Council DIRECT that you and any other persons with you are to leave the land and remove the vehicle(s) and any other property which you have with you or they have with them on the land.
3. If you fail to leave the land and/or to remove the vehicle(s) and any other property which is the subject of this Direction as soon as practicable and in any event by 0800hrs on 01 August 2018 or having removed any such vehicle or property, you again enter the land with a vehicle within the period of THREE MONTHS beginning with 31 July 2018, you will commit an offence and will be liable on summary conviction to a fine not exceeding level 3 on the standard scale (currently £2,000 subject to alteration from time to time).
4. The Direction operates to require persons who re-enter the land within the said period with vehicles or other property to leave and remove the vehicles or other property as it operates in respect to the person and vehicles or property on the land when the Direction was originally given.

<p>At 14:45 I attended Butts Green, Lockerley and met with the SMITH family. They have come down from Broughton. They are planning on staying till some point next week. I anticipate this will be till Test Valley Borough Council issue them with a notice to leave. They kept emphasising that they have 7 days to move from that notice, which, in fairness they're currently NFA and have been since November of 2017, so even if they were to leave there's no permanent home for them.</p> <p>They told me they travel alone and that they plan to keep the site tidy. They're tucked into a corner of the green. I have no immediate concerns about them being present. I've taken details for all the parties. One note is that RMS shows both Walter and Sam with two different D.O.B's. Sam gave me a year of 2005 and Walter 2006. Everyone came back in order and the vehicle checked out okay.</p> <p><i>Log entry:</i></p> <p>I had some parish council representatives approach me near demanding me to move them on. I explained I couldn't and that they needed to go through TVBC.</p> <p>On my behalf, I asked PCSO 15559 to assist in calling TVBC as I was unable too. It transpires that they have already been notified.</p> <p>For note on patrols, not expecting any issues. For filing.</p>					
Enquiry log	26/07/2018 19:09		#24294 WHITE, K.	No	
<p>16475</p> <p>This occurrence relates to an Op Quebec, which has inadvertently been filed.</p> <p>Police were called at 12:00 on 20th July by a resident to say that a caravan had parked up on land at Butts Green in Lockerley. On police arrival one caravan and one pick up truck were found on the site and a C58 completed. The occupants, [REDACTED] and Darren SMITH stated that they had travelled from Broughton and intended to stay at the site for seven nights. They had two children with them; [REDACTED]</p> <p><i>Log entry:</i></p> <p>On 26th July 2018 a parish councillor served upon the SMITH'S a notice to evict the site. They have been given until Monday to move on.</p> <p>The criteria for a S61 CJPO is not met in these circumstances as there is only one caravan and one truck. The landowners are aware and have taken their own steps to evict the family from the green. A task has been placed on the Test Valley inbox for patrols to pay passing attention and the R&P sergeant and Inspector has been made aware.</p> <p>PC 24294 Katie White</p>					
Sergeant review	26/07/2018 19:36		#23002 OLIVER, D.	No	
<p>I have just been made aware of this incident by PC WHITE</p> <p>This is an op Quebec, it is a single caravan and truck, the family contained are NFA and move around living in their van. Council have served paperwork on the family tonight giving them until Monday to move on</p> <p>C58 has been completed</p> <p>The site is an open piece of green field, they are tucked in one corner, there are houses nearby but they will not have had to cause any damage to enter it, it is unlikely to cause any disruption to any person wishing to use the field.</p> <p><i>Log entry:</i></p> <p>PC WHITE is going to attend and BWV the site and confirm it is being kept tidy etc</p> <p>I will make the duty Inspector aware of this matter as it appears for whatever reason never to have been raised, task has been sent to Test Valley NPT inbox. It does not meet the criteria for section 61 powers at this time</p> <p>I will also add to the R&P handover sheet for awareness/patrol</p>					
Sergeant review	27/07/2018 07:09		#20881 LYONS, G.	No	
<p>A/PS 23002 OLIVER</p> <p>For clarity, this had not been inadvertently filed; it still sits live with PCSO Bate and is being managed by NPT.</p> <p>This is an annual occurrence: the Smith [REDACTED] family moving around Test Valley area; we managed them last year with some minor issues around a stolen caravan.</p> <p><i>Log entry:</i></p> <p>They family moved from Broughton to Lockerley last week; they have been raised via DMM and the Navara vehicle circulated via briefing due to a suspicious vehicle report.</p> <p>I'm aware that CWUN contacted PC Gook as a result of a request from the Parish Council to have officers present when papers</p>

were served. As that was due to be beyond PC Gook's shift I assume that is how PC White came to be involved - I'm grateful for that assistance.

NPT will continue to monitor, to establish where they go next.

 Log entry: Attended the site at approximately 15:00 today with PCSO 15559 Williams. Still two caravans on site. The site was tidy. Although they've given the day of Monday to leave, I suspect, given the notice was issued on Thursday they may well stay till then, as I'm told it's a seven day notice.

 Log entry: Attended Butts Green, Lockerley this evening and spoke with [REDACTED] SMITH. She confirmed that a parish councillor was over yesterday evening demanding they leave and threatening to take them to court, however [REDACTED] said to come back when he was calm and they could talk about it.
 I'm happy there is no police reason to see the site is evicted. The council have it in hand and if they so choose to pursue legal action to the end that the SMITH's are removed then that it down to them.
 I'll continue to monitor. I have a good rapport with the residents of the site now.

 Log entry: I have finally managed to attend this site, this morning.
 [REDACTED] tells me they intend to stay as long as possible. They have relatives in the village and appear to be making local connections; the vicar has visited them and the dustbin men have arranged to collect their rubbish.
 [REDACTED] expressed some concerns about the behaviour of the man from the parish council, who she said was swearing when he spoke to them last week.
 As if by chance [REDACTED] from the PC arrived as I was speaking to [REDACTED]
 I spoke with him in private; he advises that he has a meeting with their solicitor on Monday to begin court proceedings. [REDACTED] has been told by [REDACTED] that they are homeless and want a court order in the hope it will allow them to queue jump to get new housing.
 The site remains tidy; no issues.

 ## Air Rifles ##
 Log entry: I have received the following from the Parish Council;
 Hello Gary
 We are just back from the annual village Flower Show, in the Village Hall just opposite the Travellers. Two very reliable witnesses reported seeing two rifles, probably air rifles, lying uncovered in the back of Darren Smith's pick-up truck. I am a target shooter and am aware that they should be covered and preferably secured.
 [REDACTED]
 We need to be mindful that the pc want this family off the land, so need to be wary however, PCSO Williams did see an air weapon on this groups site at Broughton.
 We will speak to the family to remind them of their obligations under the firearms act [sec 19 and potentially 22]

I attended Butts Green, Lockerley and spoke to Darren Smith and [REDACTED] earlier today
I discussed the report that we have received about the Air rifle seen in the back of Smiths pick up truck
I said on this occasion we were having a 'word in his ear' about this and no further action will be taken. However if we receive any more reports of this nature then the air rifle will be seized and he is liable for prosecution under Section 19 of the Firearm Act.

Log entry:

The air rifle is now being kept in the caravan hidden from view, I explained that residents will report things to us so to keep the area tidy, keep the noise down etc whilst they are there.

I said that I will phone [REDACTED] in relation to their housing application and call [REDACTED] back

Update from Parish Council
As you should know we were due in court this morning at 10:30 [16 August] to have our complaint heard. The female from the caravans was also in court, one [REDACTED] holding the notice.
The judge was being particularly careful in his deliberations, apparently finding fault with the wording of the Bailiffs' statement, and then indeed found fault with how they had served the notice. Apparently the Bailiffs gave the paperwork directly to [REDACTED] which is why she had turned up at court. However under Section 55 of some law the proper procedure is to hammer a stake into the ground with the notice attached to it, which they had not done. So he rejected our case.
This now means that a new date next week for a court hearing will have to be set, and then the bailiffs will have to serve notice again to these people 48 hours beforehand, and to use the correct procedure! I put it to the solicitor, who agreed, that the bailiffs should do this work at their expense as they failed to do it correctly the first time.

Update from the Parish Council
Hello parishioners
I feel I need to bring you up to date with how the legal process is unfolding. As you may remember our first application on 16th August was rejected by the Judge on a technicality. We have now applied for a new hearing, and the first date available is Monday 3rd September, which is not good news.
Our solicitor has been up to the Court this morning to see if an earlier date was available, but it was not. So I'm afraid we have to wait until then.
In the meantime if you become aware of any antisocial behaviour then please contact the Police on their 101 telephone line number.

[REDACTED] were visiting.
The site was busier and rowdier than normal, with kids playing on the green and on the road; minor nuisance but not ASB, although it's the kind of behaviour that will generate interest amongst the local residents.
[REDACTED] is aware of the situation with the civil action. She advises that she has heard nothing more from [REDACTED] re housing but has a meeting with housing [TVBC?] on Friday.

Call from [REDACTED] a local resident providing details on advice of environmental agency. For the last 2 weeks chemical cannisters have been dumped in the stream to the left of celms way. They are large square cannisters marked up as poison and corrosive. There is also what looks like a dumped bike in the stream. This is approx. 10 yards away from the travellers encampment. References from the Environment agency are 1649641 and 1650329. Last night the residents returned with a number of large items of garden equipment eg. petrol lawnmowers and she is aware there have been a number of burglaries in the local area where garden equipment has been stolen.

Good afternoon Gary

No idea how your shift patterns are, but here is a quick update on our unwelcome ?visitors?:

They have now yesterday afternoon and again at 13:20 this afternoon detonated an industrial-scale explosive, making severe shock waves which rattled all the windows around. To me it was similar to the ?maroons? used to summon the lifeboat in coastal towns. They have also had bonfires on several evenings, created large palls of acrid black smoke.

Log entry:

I will be at the County Court on Monday morning at 11:00 to hear the legal process. Providing that the Judge finds no fault this time I expect the Bailiffs to act from Tuesday.

I hope the village remains calm and legal until then.

Many thanks

I think a new occurrence should be made as this family have moved on to a new venue.

That said, I don't believe the circumstances now result in this being an Op Quebec; The family, two caravans and one car, are now parked up in a layby, effectively on the highway and therefore not trespassing.

Log entry:

I spoke with [REDACTED] today and she informed me there has been no progress with her housing application.

The site was tidy and I can see no real issue with this venue. It used to be an Op Wolf site and I have yet to see anyone use the layby in the last 2 years I have worked this area. It is adjacent to the scout hut but the presence of the caravans does not prevent access.

No

If no, please record basis for decision (consider communicating with trespassers expected standards of behaviour, community reassurance to advise of Police actions, schedule of patrols on site, amenities from local authority – skips etc)
The site, although in the center of Lockerley village is on a quiet country green. It is a reasonable distance from any homes. It is likely that they will interact with locals, however, after speaking with them I'm quite satisfied it is highly unlikely they will cause any alarm, harassment or distress to the locals. I don't suspect anyone else will turn up to join them. The site was clean and tidy. It'll be patrolled to monitor going forward.

	Encampment visited at around 21:00hrs today. James and Joey BOWERS were present and said that they had arrived at about 15:00hrs. They said they intended to stay for 2 or 3 days as they had some family business to attend to.				
Log entry:	The site is one previously used by them and other than flattening some grass they have not caused any damage on the site or gaining access to it. There were two Transit Tippers on the site (linked), one caravan bearing the index BN09GXM (linked) and another caravan with no index displayed (not linked).

	Update from Dog warden regarding dogs on the site: The dogs I visited were in direct sun with no water so I gave the person in charge of the dogs at the time formal instruction to ensure that the dogs had water throughout the day and were kept out of direct sunlight. I said that I would be visiting throughout the day and if I found that my instructions had not been followed or were not being fulfilled then I would consider taking the dogs into possession under the Animal Welfare Act. I spoke to the Police, RSPCA, Vets and Environmental services and despite a very high level of demand a police officer and two officers from Environmental services attended at 13.15. The temperature was 26 degrees and two spaniels were in direct sun with one having no shelter at all. I tried to find the owner but they were not there.				
Log entry:	I checked the two dogs who were most at risk due to morphology and lack of shade. I took them into possession under the Animal Welfare Act so that I could take immediate action to assess and alleviate any suffering. The lurchers on site were ok, having access to shade, water and a higher surface area to body mass ratio. Both spaniels were taken to our vets who couldn't attend but were on stand by to accept the dogs. The dogs were found to be not suffering from excessive heat so were returned with advice, medical advice and all dog kennels, cages were moved to the far side of the caravans where they were out of direct sunlight. The advice to be given to callers is that we are aware and have attended with the police, the dogs have been checked by a vet and

found to be okay. Advice has been given and the situation will be monitored by all agencies involved.

The travellers have said that they are moving on soon and I expect this to be the case as the site they are on is getting a lot of attention from passing motorists.

NPT A/INSP REVIEW:

I have read the OEL and see that this site was attended by NPT yesterday, a breif update added and the S58 Form Completed. It is not clear whether ownership as been with R&P at all and it currently sits with NPT.

From reviewing the information so far

1. This is an unauthorised Encampment and would fall within the guidelines of "Operation Quebec Management Process."

2. Currently there are 2 persons and 2 vehicles present:

Section 61 of the Criminal Justice and Public Order Act 1994 allows the senior police officer attending the scene of an incident involving trespass, in certain circumstances, to direct the trespassers to leave the land and remove their vehicles and property as soon as reasonably practicable.

61(1) If the senior police officer present at the scene reasonably believes that two or more persons are trespassing on land and are present there with the common purpose of residing there for any period, that reasonable steps have been taken by or on behalf of the occupier to ask them to leave and-

(a) that any of those persons has caused damage to the land or to property on the land or used threatening, abusive or insulting words or behaviour towards the occupier, a member of his family or an employee or agent of his, OR
(b) that those persons have between them six or more vehicles on the land,

he may direct those persons, or any of them, to leave the land and to remove any vehicles or other property they have with them on the land

Log entry:

3. The C58 has been completed and no offences have so far been disclosed, therefore s61 is not actively being considered. Given the location, Community Impact is LOW, so far the site has not created a significant impact or number of incidents.

4. We now appear to be within "TIER 2" of the OP Quebec Guidance Notes. This means that we have received the incoming report of an unauthorised encampment and it has not been deemed a critical incident. This can now be managed at a District Level. Nothing has been noted from today's DMM regarding ownership. Therefore TA NPT will now own the actions below and management of current police response.

5. The objectives of the Police Response will be: To keep people safe, to prevent and reduce crime and to catch criminals.

6. Actions to be completed, in no particular order:

* Site to be visited daily during the course of each shift.

NPT are not 24/7, therefore the ownership is for both R+P and NPT to manage this action. Officers visiting the site should openly engage with the occupants, establish who is staying there along with any additional vehicles, identify and record any offences including damage that has occurred. A record of each visit to be added to the OEL. Any significant change in the number of people and/or vehicles, Offences, Increase in Community Tension must be brought to the attention of the Duty Inspector or NPT Inspector.

* Notify Land Owner and outline Expectations and responsibilities for removal of encampment. It is recorded that this may be Land - please make contact and establish what stage they are at in the notice to leave the land.

* Consider the legitimate needs and expectations of all communities involved in a dispute over an unauthorised encampment.

* Significant Changes to be raised to Inspector/DMM process.

Site visited and occupants spoken to. The only change was a silver Peugeot which has been added to the involed tab. The site looked in good order with no obvious enviromental issues. From speaking they plan to leave Sunday.

Log entry:

There is now 5 vehicles which still isn't enough for OP QUEBEC.

I have reviewed the information on this occurrence. Around 1700 hrs today travellers have moved onto a field (adjacent to scrub land) off Icknield Way, Andover. The land is believed to either belong to the [REDACTED]. There are 6 vehicles which have parked up at the top of the field away from local residential properties. They have not caused damage. The landowner has not yet been confirmed so have not asked the travellers to leave. There was a report of a cable drum being taken from [REDACTED] in Icknield Way which was possibly linked to the travellers but					

Hist - RESTRICTED

Hist - RESTRICTED

when officers attended the encampment there was no sign of this. I am not aware of any ASB being reported since the travellers arrived. The travellers were happy to speak with the attending officers and stated they planned to stay for 3-4 days then move on to Devon. They are members of the Bowers family who I believe often pass through the Andover area during the summer months. I have reviewed this encampment from the point of view of ascertaining if there is sufficient reason to ask for authorization to require the travellers to leave the site.

At present S61 CJPO Act is not made out as the landowner has not asked them to leave, and the impact the travellers are currently having on the local community does not in my view warrant use of this legislation. There were however 6 vehicles when the site was visited

- 1) No damage caused
- 2) No threats made to the land owner
- 3) 6 vehicles

I have used the National Decision Making Model to assist in my decision making.

Information and Intelligence:

In reviewing this matter, I have considered the following issues:

- i) Local amenities are deprived to communities or significant impact on the environment.
- ii) There is local disruption to the economy.
- iii) There is other significant disruption to the local community or environment.
- iv) There is a danger to life.
- v) There is a need to take preventative action.
- vi) There are sufficient vehicles to consider S61

Point i) is not met at this time ? area may be used for dog walking etc but they have positioned themselves at the top of the field out of the way

Point ii) is not met at this time ? open land on outskirts of residential area

Point iii) is not met at this time ? so far no ASB reported

Point iv) is not met at this time - there is no danger to life.

Point v) is not met at this time ? there is no current need to take preventative action

Point vi) is met at this time ? there are sufficient vehicles for use of S61, however other criteria as detailed above are not met.

Log entry:

Assess Threat and Risk: Develop Working Strategy.

At this time the threat caused by this group is LOW - there has NOT been crime and disorder reported as a result of their habitation of this site.

By moving on the group, there is a possibility that they will choose a site that is less desirable for them to be at than the one they are currently at.

The working strategy would be to look to develop a response whereby the needs of all are met.

Powers and Policies:

Op Quebec is the current Hampshire Police operation to deal with this issue.

S61 Criminal Justice and Public Order Act 1994 relate to the issue of unlawful encampments on land by trespassers - this legislation provides police with powers to deal with this issue.

Human Rights Act 1998 to be considered with regards to all police actions.

Identify Options and Contingencies:

The first option is to allow the landowner to consider eviction process and for police to monitor the site.

Second option is for police to do nothing further.

Third option is for police to issue a notice to the travellers on the site to quit after a reasonable period of time in line with S61 Criminal Justice and Public Order Act 1994. (If more vehicle arrive and/or other elements of S61 CJPO Act are met.

Action and Review:

- Regular patrols in the area evidencing any build up of waste, extra vehicles ? R&P to monitor the encampment when NPT not on duty

- Reassure local residents / businesses - NPT

- If any aspects of this current assessment changes then this is to be brought to the attention of the District or R&P Inspector.

This encampment is currently suitable for local district management ? Tier 2.

Enquiry log

28/05/2018 13:06 #24294 WHITE, K. No

I have attended the site this afternoon and spoken with Margaret BOWERS. She says that they intend to stay a week or two. On my attendance there was four caravans, a Ford Transit VRM RV57 PZK, a Ford Transit tipper VRM NA58 HPK and a silver Mercedes VRM BF11 TYV.

I noted a couple of dogs, including two very small puppies, but only saw Margaret and one other female at the site. Whilst at the site, an attention drawn was passed over the air relating to Albert Bowers. It was reported that he had been knocking doors in Sarum Close in Shipton Bellinger "touting for business."

Log entry:

On the occurrence the location thus far has been described as waste land just off of Icknield Way near East Anton Farm. This is not the case. The site is on the large field just off of Smannell Road to the east of Cricketers Way (and west of the new YMCA building). I have changed the occurrence address to reflect this.

WARNING LETTER
(Community Protection Notice warning)

Anti –Social Behaviour Crime and Policing Act 2014

To: PERSONS UNKNOWN

**& OWNERS/OCCUPIERS OF THE VEHICLES
ON SAID LAND**

Of: OLD DOWN ROAD, ANDOVER, HAMPSHIRE

**Warning Letter – Community Protection Notice
(In accordance with Section 43
of the Anti-Social Behaviour Crime and Policing Act 2014)**

Test Valley Borough Council is satisfied that you are responsible for unreasonable conduct which is persistent and/or continuing in nature and is having a detrimental effect on the quality of life of others in the locality.

This unreasonable conduct includes:

1. Keeping unauthorised vehicles and caravans within the Borough of Test Valley on land belonging to Test Valley Borough Council or others without permission.
2. Defecating in a public place and/or on land belonging to others.
3. Unlawfully depositing controlled waste

This letter is formal notification that you are required to stop behaving in the manner described above to avoid further consequences. Please ensure that you take the following actions within the timescales identified.

Action you must take:

**Deadline for when you must do
this by:**

Cease the following activities:

1. Cease parking all vehicles and caravans within land (including parks and open spaces) in the Borough of Test Valley belonging to Test Valley Borough Council, or others, without permission.

IMMEDIATELY

Extract from the Anti-social Behaviour, Crime and Policing Act 2014

46. Appeals against notices

- (1) A person issued with a community protection notice (CPN) may appeal to a magistrates' court against the notice on any of the following grounds.
 - a. That the conduct specified in the CPN did not take place; has not had a detrimental effect on the quality of life of those in the locality; has not been of a persistent or continuing nature; is not unreasonable, or is conduct that the person cannot reasonably be expected to control or affect.
 - b. That any of the requirements in the notice, or any of the periods within which or times by which they are to be complied with, are unreasonable.
 - c. That there is a material defect or error in, or in connection with, the notice.
 - d. That the notice was issued to the wrong person.
- (2) An appeal must be made within the period of 21 days beginning with the day on which the person is issued with the notice. (3)
- (3) While an appeal against a CPN is in progress
 - a. a requirement imposed by the notice to stop doing specified things remains in effect, unless the court orders otherwise, but
 - b. any other requirement imposed by the notice is of no effect. For this purpose an appeal is "in progress" until it is finally determined or is withdrawn.
- (4) A magistrates' court hearing an appeal against a CPN must
 - a. quash the notice,
 - b. modify the notice (for example by extending a period specified in it), or
 - c. dismiss the appeal.

47. Remedial action by local authority

- (1) Where a person issued with a CPN ("the defaulter") fails to comply with a requirement of the notice, the relevant local authority may take action under subsection (2) or subsection (3) (or both).
- (2) The relevant local authority may have work carried out to ensure that the failure is remedied, but only on land that is open to the air.
- (3) As regards premises other than land open to the air, if the relevant local authority issues the defaulter with a notice (a) specifying work it intends to have carried out to ensure that the failure is remedied, (b) specifying the estimated cost of the work, and (c) inviting the defaulter to consent to the work being carried out, the authority may have the work carried out if the necessary consent is given.
- (4) In subsection (3) "the necessary consent" means the consent of (a) the defaulter, and (b) the owner of the premises on which the work is to be carried out (if that is not the

defaulter). Paragraph (b) does not apply where the relevant authority has made reasonable efforts to contact the owner of the premises but without success.

- (5) A person authorised by a local authority to carry out work under this section may enter any premises to the extent reasonably necessary for that purpose, except that a person who is only authorised to carry out work under subsection (2) may only enter land that is open to the air.
- (6) If work is carried out under subsection (2) or (3) and the relevant local authority issues a notice to the defaulter (a) giving details of the work that was carried out, and (b) specifying an amount that is no more than the cost to the authority of having the work carried out, the defaulter is liable to the authority for that amount (subject to the outcome of any appeal under subsection (7)).
- (7) A person issued with a notice under subsection (6) may appeal to a magistrates' court, within the period of 21 days beginning with the day on which the notice was issued, on the ground that the amount specified under subsection (6)(b) is excessive.
- (8) A magistrates' court hearing an appeal under subsection (7) must (a) confirm the amount, or (b) substitute a lower amount.
- (9) In this section "the relevant local authority" means (a) the local authority that issued the CPN; (b) if the CPN was not issued by a local authority, the local authority (or, as the case may be, one of the local authorities) that could have issued it.

48. Offence of failing to comply with notice

- (1) A person issued with a CPN who fails to comply with it commits an offence.
- (2) A person guilty of an offence under this section is liable on summary conviction (a) to a fine not exceeding level 4 on the standard scale, in the case of an individual; (b) to a fine not exceeding £20,000, in the case of a body.
- (3) A person does not commit an offence under this section if (a) the person took all reasonable steps to comply with the notice, or (b) there is some other reasonable excuse for the failure to comply with it.

49 Remedial orders

- (1) A court before which a person is convicted of an offence under section 48 in respect of a CPN may make whatever order the court thinks appropriate for ensuring that what the notice requires to be done is done.
- (2) An order under this section may in particular require the defendant (a) to carry out specified work, or (b) to allow specified work to be carried out by or on behalf of a specified local authority.
- (3) To be specified under subsection (2)(b) a local authority must be (a) the local authority that issued the CPN; (b) if the CPN was not issued by a local authority, the local authority (or, as the case may be, one of the local authorities) that could have issued it.
- (4) A requirement imposed under subsection (2) (b) does not authorise the person carrying out the work to enter the defendant's home without the defendant's consent. But this

- (2) In this section "designated person" means a person designated by a local authority under section 53(1) (c).
- (3) A constable or designated person may use reasonable force, if necessary, in executing a warrant under this section.
- (4) A constable or designated person who has seized an item under a warrant under this section (a) may retain the item until any relevant criminal proceedings have been finally determined, if such proceedings are started before the end of the period of 28 days following the day on which the item was seized; (b) otherwise, must before the end of that period return the item to the person from whom it was seized.
- (5) In subsection (4) "relevant criminal proceedings" means proceedings for an offence under section 48 in the commission of which the item is alleged to have been used.

CPN Ref Number: TVBC/ODW/AP/002

TO: PERSONS UNKNOWN

& OWNERS/OCCUPIERS OF THE VEHICLES
ON SAID LAND

OF: OLD DOWN ROAD, ANDOVER, Hampshire

You have been given a written warning on, 07 August 2018 that a Community Protection Notice will be issued unless your reasonable behaviour, as detailed in the written warning, ceases. Test Valley Borough Council is satisfied that, despite having had enough time to deal with the matter, your unreasonable behaviour continues.

You are hereby required to comply with the following IMMEDIATELY:

1. Cease keeping unauthorised vehicles and caravans within the Borough of Test Valley on land belonging to Test Valley Borough Council or others without permission.
2. Cease defecating in a public place and/or on land belonging to others.
3. Cease unlawfully depositing controlled waste

If you fail to comply with these requests without reasonable excuse is an offence and may result in the following:

- You may be issued with a fixed penalty notice.
- You may be prosecuted. If you are prosecuted and convicted the maximum penalty is a fine not exceeding level 4 on the standard scale (currently £2,500 for an individual and up to £20,000 for a business or organisation).
- The court may make whatever order the court thinks appropriate to ensure that what the notice requires to be done is done.
- A court order may require you to:
 - a) Carry out specified work, or
 - b) Allow specified work to be carried out by or on behalf of Test Valley Borough Council.
- The court may require you to surrender possession of any item used in your failure to comply with the Notice, to a Constable or to a person representing the Local Authority. The court may require this item to be destroyed or disposed of. A Justice of the Peace may issue a warrant, authorising a constable or authorised person to enter your premises to seize the item.

Notes

I spoke with one lady who appeared to be the only person onsite. This is a family group who we have removed from many other sites. She remarked that they intended to stay as long as possible and were not looking to move on out of the area. She stated that the police had said they would ok in their current location which was just used by dog walker!

SUMMARY FOR GUIDANCE OF AUTHORISING OFFICER

I visited the site at 10.45 hours on Tuesday 14th August 2018.

Location: - From my office in Winchester I travelled to Andover and then on to Charlton village. I turned left off the A343 onto Goch way and left at the next roundabout continuing on Goch way. In the village I turned left at the mini roundabout and then right onto a tarmacked road signposted to Charlton lakes. Where the road forked with the main car park on the right I continued on left through a yellow low barrier where the padlock had been removed. I found the encampment on the right in a small hammer head area of a large communal grass area just past the lakes and play area on my right hand side.

People and Vehicles: - I saw the caravans and vehicles as described on page 2 of this report.

I approached the site on foot and recognised one resident as Mr Freddie Bowers who I know personally and have met recently on another site in the Andover area.

Sat on the front step of another caravan was a large adult male I believed to be a Mr Loveridge. There was another unknown adult female in the same caravan.

I was also approached by an elderly unknown male and an unknown young female in a dressing gown who sat at a table near the caravan.

I spoke direct to Mr Bowers but in the hearing of the small assembled group. During all this time the adult believe to be Mr Loveridge was verbally aggressive and disruptive to the conversation. I explained to all that I was attending the site to carry out welfare enquiries and was advised that all were well and there were no specific welfare issues.

I saw that the site was generally tidy but believe that damage will be caused to the grass area by constant use of vehicles and / or caravans especially if the current rainy weather persists.

I asked again generally if there were any welfare issues and was told that all of the site residents were well and did not require any assistance.

I informed all that I saw that they were encamped on land owned by Test Valley Borough Council and would be required to move. Failure to do so may result in Court action for repossession of the land.

Apart from Mr Bowers, the remainder of the resident's were very uncommunicative and when I asked about general health, housing and education matters any response was negative or ignored.

Environment: - Although the site was relatively clean and tidy, as there are no open public toilets in the immediate vicinity I suspect that with time that the nearby bushes and trees being used as toilet facilities will become a health hazard to users of the communal park and play area's.

Observations: - As mentioned above, I suspect that damage will be caused to the grass area in time and also the general public are being denied use of the recreational grass area together with the café facilities which I am advised have been closed due to the presence of the encampment.

I suggest that now a short period of toleration has been allowed that serious consideration be given to taking repossession of the land in question.

Guidance of Authorising Officer

The Legal Framework

There is a statutory definition of 'Gypsies' which is contained in the Caravan Sites and Control of Development Act 1960 (as amended by the Criminal Justice and Public Order Act 1994) namely, "persons of nomadic habit of life, whatever their race or origin". The term does not include members of an organised group of travelling show people or circus people travelling together as such.

Case Law has excluded from the definition those people who move from place to place, without any connection between their movement and their means of livelihood.

Site Provision

The Caravan Sites and Control of Development Act 1960 (as amended by the Criminal Justice and Public Order Act 1994) permits local authorities (including County, Borough and District Council) to provide and manage sites for caravans and to provide in or in connection with Gypsy caravan sites working space and facilities for the carrying on of such activities as are normally carried on by Gypsies. Following the enactment of the 1994 Act, Hampshire County Council is no longer under a duty to provide such sites.

Unauthorised Encampments – Council Powers

Hampshire County Council may employ any of the following powers to move unauthorised traveller encampments:

1. Section 77 of the Criminal Justice and Public Order Act 1994 which gives local authorities the power to direct persons to leave land and remove any vehicles or property. If a direction is not complied with a Magistrates Court Order can be obtained, under Section 78 of the 1994 Act, requiring the removal of any persons on the land together with their vehicles and property.

If a person fails to comply with such a direction or if he complies but then re-enters the land within a period of three months, an offence is committed under the 1994 Act.

2. Section 143 of the Highways Act 1980 gives power to a highway authority to remove, on one month's notice, any structures set up on a highway. The definition of structures includes a caravan or vehicle and a Court Order is not necessary under this section. Hampshire County Council, as the highway authority, can therefore exercise this power.
3. A possession order may be obtained in the civil court requiring the removal of any trespasser from Council land or land in their management. Prior to such application the County Council should make itself aware of all the material facts of the case and undertake such investigations of the occupants.
4. Common Law Eviction – where Council land is occupied by trespassers, the Council is not, at common law, obliged to go to the courts to obtain possession. The Council can lawfully eject such trespassers providing that no more force is used than is reasonably necessary.

However, the Government's 'Good Practice Guide on Managing Unauthorised Camping' advises that where appropriate a route which requires a Court Order Should be followed.

Human Rights Act 1988 Record of Incorporation in Decision Making Process

Enforcement Proceedings Concerning Travellers

I certify that I have considered the Human Rights of the Travellers presently located at

Grass area at Charlton lakes, Charlton, Andover, Hampshire

In approaching the matter, I have sought to have regard to their human rights (balanced with the human rights of others) and, in particular, I have sought:

- i) To act fairly, openly and promptly as possible;
- ii) To explain our procedures and requirements clearly in a language which the Travellers understood;
- iii) To consider all matters raised by the Travellers;
- iv) To consider any representations on behalf of the Travellers;
- v) To explain the reasons for our decisions.

I claim to be entitled to seek restriction of the human rights of the Travellers both on the basis that there is no human right of unlawful trespass and that I am acting in accordance with the law and further in accordance with the following stated qualifications, namely:

- i) Public safety; and / or
- ii) The prevention of disorder or crime; and / or
- iii) The protection of the rights and freedoms of others.

I have approached the question of the discrimination and I am acting on the merits of the matter without discrimination.

On the matter of protection of possessions the action which the council is taking is in the public interest and under, and in accordance with the law.
