

Test Valley Borough Council

Strategic Housing and Economic Land Availability Assessment (SHELAA)

Appendix 3

**Northern Test Valley Sites identified within Local Plan Settlement
Boundary where a change in policy is required for development**

Disclaimer

- i) The SHELAA document is an important component of the evidence base for Test Valley Local Development Framework (LDF). It seeks to identify and assess land available with housing and economic potential to inform future allocations for housing and employment. The Council is required to carry out, maintain and update its SHELAA's.
- ii) The key points that should be acknowledged when referring to this document are:
 - a. The SHELAA only identifies sites with development potential, it does not allocate sites
 - b. The SHELAA is based on the most up to date information available (supplied and researched) at the time of the document's preparation. Therefore factors may be subject to change over time and may have an effect on any site. This may include (but not be limited to):
 - i. Site boundaries
 - ii. Assessment information
 - iii. Constraint may be mitigated/overcome or additional factors may be identified
 - iv. Likely development timescales may be subject to change
 - v. Site capacity or densities may be subject to change as additional information is developed and masterplanning detail takes place
 - vi. The availability of the site may be reassessed by the landowner
 - c. The inclusion of a site within this document does not imply that the Council would necessarily grant planning permission for residential or employment use
 - d. The inclusion of a site within the document does not preclude them from being developed for other uses
 - e. Sites which are considered to have potential for strategic housing allocation may be assessed separately in a Sustainability Appraisal before policy decisions are made in the next Local Plan
 - f. SHELAA sites have not been ranked or discounted for existing constraints or potential delivery delays.

- iii) The information is based on submissions received from landowners and agents. Where information has not been provided in relation to site capacity or expected delivery the Council has estimated supply. These are marked with an asterisk.
- iv) The base date of this document is June 2021
