Subject: Refined Issues and Options Consultation 2020

We live in Valley Park in Test Valley and have read the parish council newsletter recently posted to us. Our view is that to reduce road traffic, Valley Park does need more local facilities, in particular a cafe or two would help a lot. Possible locations for this could be around the leisure centre and/or near the surgery and shops.

Greatly improved bus services would also help, in particular greater frequency of buses to and from Winchester, Eastleigh and Southampton.
