Part B: Your Comments

Please use the boxes below to state your comments and questions. Please make it clear which paragraph or question your comments relate to where possible.

Questions 1-10	I would strongly support the present rules and regulations, and advise against any changes in the system - Particularly at a time when all our local energies are needed to tackle the Coronavirus crisis. The present rules are clear and understood, and have been refined over some years - they have stood the test of time. The present system reflects a fair balance between several conflicting interests: I would suggest we maintain this sense of balance and fair play.
