Appendix 2: Refined Issues and Options Schedule of Comments (set out in a separate document)

1. Introduction

1.1 This Statement of Consultation has been prepared in accordance with Regulation 18 of the Town and Country Planning (Local Development) (England) Regulations 2012 (as amended). This sets out specific bodies and persons which must be consulted by a Local Planning Authority (LPA) during the preparation of this stage of the Local Plan.

1.2 The Regulations state:

- A local planning authority must;
 - i. notify each of the bodies or persons specified in paragraph (2) of the subject of a local plan which the local planning authority propose to prepare, and
 - ii. invite each of them to make representations to the local planning authority about what a local plan with that subject ought to contain.
- The bodies or persons referred to in paragraph (1) are:
 - i. such of the specific consultation bodies as the local planning authority consider may have an interest in the subject of the proposed local plan
 - ii. such of the general consultation bodies as the local planning authority consider appropriate; and
 - iii. such residents or other persons carrying on business in the local planning authority's area from which the local planning authority consider it appropriate to invite representations.
- In preparing the local plan, the Local Planning Authority must take into account any representation made to them in response to invitations under paragraph (1).

1.3 This statement, which should be read in conjunction with the Statement of Community Involvement (SCI), sets out the details of each stage of public consultations undertaken on the Local Plan. This currently includes the Issues and Options and Refined Issues and Options documents. It sets out the methods of consultation used, outlines the statutory and non-statutory bodies and persons which have been invited to comment and sets out a summary of the responses received.

1.4 The Statement of Community Involvement (SCI) sets out how the Council will involve and consult the public, businesses and interest groups on planning matters, including planning policy and the planning application process. The Council is legally obliged to comply with its SCI. The Council's Cabinet adopted the SCI in December 2017, following a period of public consultation.

- 1.5 The general principles of consultation which are set out in the SCI gives residents, communities and stakeholders the tools to participate in the planning process. In turn, this leads to a transparent decision-making process where the involvement of residents, communities and stakeholders is both an integral step, and is evident in the formalised plan.
- 1.6 Coronavirus (COVID-19) has had a profound impact on countries around the world. The initial peak of COVID-19 was experienced by the UK in spring 2020. It has directly affected people and communities across Test Valley and remains an ongoing concern. This means taking stock of the different ways in which Test Valley's neighbourhoods, communities and local economy have been (and may continue to be) affected. The ways in which we engage have therefore been impacted by this.
- 1.7 In June 2020, the Council's Cabinet resolved to revise the Statement of Community Involvement to add an Addendum. This relates to temporary revised consultation arrangements that are to apply whilst coronavirus restrictions are in place. The addendum¹ is available alongside the SCI.

¹ [https://www.testvalley.gov.uk/assets/attach/10085/SCI Addendum \(June 2020\).pdf](https://www.testvalley.gov.uk/assets/attach/10085/SCI%20Addendum%20(June%202020).pdf)

2. Local Plan: Process so far

2.1 The Test Valley Local Plan provides a policy framework for the delivery of sustainable development across the borough. This local plan will replace the Revised Local Plan 2029 on adoption and look ahead to 2040. The plan will set out the Boroughs development needs by identifying the number of new homes and jobs to be provided in the area for the plan period. The local plan will also make provision for retail, leisure and commercial development and for the infrastructure needed to support them and protect and enhance the local environment.

2.2 The Local Plan will include objectives which align with the Council's vision as set out in the Corporate Plan² helping to create a Test Valley community where everyone has the opportunity to fulfil their potential and enjoy a good quality of life.

2.3 There are a number of stages involved in the preparation of a local plan. For this local plan, the timetable is as follows:

Issues and Options (2018 Q3)

Refined Issues and Options (2020 Q2)

Consultation on Regulation 18, Stage 1 (2022 Q1) (current stage)

Consultation on Regulation 18, Stage 2 (2022 Q4)

Consultation on the Publication Plan, Regulation 19 (2023 Q4)

Submission (2024 Q3)

Examination (2024 Q4)

Adoption by Council (2025 Q3)

2.4 There are procedural requirements that the Council is required to comply with throughout. These stages and requirements are prescribed by national policy and legislation. This includes the undertaking of number of rounds of public consultation (Regulation 18 and Regulation 19) before a draft local plan can be submitted to the Secretary of State for independent public examination, as set out above.

2.5 We have undertaken two rounds of public consultation so far on the Local Plan. Both these rounds of public consultation were non statutory stages, however we have still sought to under these rounds of public consultation in accordance

² [Growing Our Potential - the Corporate Plan 2019-23 | Test Valley Borough Council](#)

with Regulation 18 of the Town and Country Planning (Local Development) (England) Regulations 2012 and our SCI and Addendum, where appropriate.

3. Issues and Options Public Consultation

- 3.1 The Issues and Options consultation was the first borough-wide public consultation undertaken by the Council with regard to the preparation of the new Local Plan. The consultation ran for a ten-week period from 6 July to 14 September 2018 and was non-statutory.
- 3.2 The Issues and Options consultation³ aimed to get views on the issues that face the borough, and those that live and work in Test Valley will face, and the options for how best we deal with them.
- 3.3 This Issues and Options document set out the main issues facing the borough, with reference to the following four main themes:
- 1) Living in Test Valley
 - 2) Working in Test Valley
 - 3) Enjoying Test Valley
 - 4) Infrastructure in Test Valley
- 3.4 The following engagement methods were used:
- Electronic copy of consultation document and associated documents on the Council's website.
 - Summary document and Frequently Asked Questions Sheet prepared to accompany the consultation document.
 - Hard copies of Issues and Options document and any key associated documents were made available to view at Council Offices at Beech Hurst, Andover and Former Magistrates Court, Romsey during office opening hours:
Monday – Thursday (8:30am – 5pm)
Friday (8:30am – 4:30pm)
 - Hard copies of the Issues and Options document and any key associated documents were made available to view at local libraries in Andover, Romsey, North Baddesley, Chandler's Ford and Lordshill.
 - Notification emails/letters to Specific Consultation Bodies regarding how to make representations
 - Notification emails/letters to those who are registered on our Keep Informed database (see 3.5) regarding how to make representations
 - A statutory notice was placed in the Hampshire Independent which went public on 6th July 2018, Andover Advertiser on 6th July 2018 and within the

³ [Local Plan Issues and Options FINAL \(2\).pdf \(itss.local\)](#)

Romsey Advertiser which was also 6th July 2018. The statutory notice provided details of the representation procedure and how to access the document and relevant supporting documents.

- Community Planning Workshop for parish councils on 4th October 2017 to set out what the Council, as Local Planning Authority, was required to do, what evidence would be needed and the ways in which parishes can have an active role. It covered: housing, environment, jobs and business, and transport, infrastructure and community
- Parish Council briefing session on 11th June 2018 to feedback on how the issues raised at previous events have been included in the Issues and Options document, in advance of its consideration at Cabinet and Full Council.

Both these events were held jointly between Planning Policy and the Policy team

- Video on the Council's website on meeting rural affordable housing need through community led development.

- 3.5 The Council maintains a 'Keep Informed Database' of individuals, groups, stakeholders and statutory consultees who are contacted regarding any Local Plan matters. Individuals can register their contact details at any point to be on this database.
- 3.6 Government Regulations require us to ensure that certain organisations (known as Specific Consultation Bodies) are consulted at key stages during the preparation of the Local Plan. It is considered that this takes account of the Council's Statement of Community Involvement in Planning 2017 and the Town and Country Planning (Local Development) (England) Regulations 2012 (as amended) [S.I.2012 No.767]. Consultation was undertaken in accordance with this, a full list of those bodies that were sent notification of public consultation can be accessed via the Issues and Options Consultation Statement⁴.
- 3.7 Responses to the consultation could be received by either post or email. Officers were on-hand during normal working hours throughout the consultation to respond to queries via phone and email and assist respondents in any way necessary.
- 3.8 There were approximately 140 representations to the Issues and Options consultation including from parish councils, stakeholders, members of the public, community organisations and other interested parties. Officers reviewed all responses and summarised the issues raised providing response to each

⁴ Available at: [Issues and Options Consultation Statement](#)

comment raised. A Schedule of Comments⁵ was created and published on the Council's website.

3.9 The Council officers summarised the main issues under the four key themes at this stage and an Executive Summary⁶ was produced and published.

3.10 The results of the responses to the Issues and Options consultation helped us to better understand what our communities see as the key planning issues going forward. The feedback received was taken into account and used to inform the Refined Issues and Options consultation, which built upon the key headlines of the responses and how these could be addressed through the overall strategy and priorities of the next Local Plan.

⁵ Available at: [pp1_2_181211 Issues and Options Schedule of Comments.pdf \(its.local\)](#)

⁶ Available at: [Executive summary](#)

4. Refined Issues and Options Public Consultation

4.1 In the summer of 2020, we held the second stage of public consultation; the Refined Issues and Options. The consultation ran for an eight-week period from 3rd July to 28th August 2020 and was non-statutory.⁷

4.2 Following the first consultation step in 2018, this Refined Issues and Options stage built on the initial responses to give further guidance on the direction of the Local Plan. It also outlined the issues that we will be focusing on in preparing for the next stage of the Local Plan.

4.3 As a non-statutory 'stepping stone' stage this document set out:

- What has happened recently and what is currently underway which is of relevance
- Headline feedback from Issues and Options consultation (held in 2018)
- The issues which we will be focusing on in preparing the next Local Plan. These were structured around the following themes:
 - Living in Test Valley (Housing and Communities)
 - Working in Test Valley (Town Centres and Local Economy)
 - Enjoying Test Valley (Environment and Quality of Life)
 - Infrastructure and Community Facilities

4.4 The following engagement methods were used:

- Electronic copy of consultation document and associated documents on the Council's website and were posted out on request
- Summary document and Frequently Asked Questions Sheet prepared to accompany the consultation document.
- Use of social media: publicising consultation and key issues covered through Council's Facebook and Twitter accounts.
- Single use hard copies of the Refined Issues and Options document and any key associated documents were made available on request and could be collected (compliant with Government Covid restrictions) from Council Offices at Beech Hurst, Andover and Former Magistrates Court, Romsey during office opening hours:
Monday – Thursday (8:30am – 5pm)
Friday (8:30am – 4:30pm)

⁷ [LP Issues and options 2020 A4L v6 FINAL \(3\).pdf \(itss.local\)](#)

- Notification emails/letters to Specific Consultation Bodies regarding how to make representations
- Notification emails/letters to those who are registered on the Keep Informed database regarding how to make representation (see paragraph 3.5),
- A statutory notice was placed within the Hampshire Independent which went public on 3rd July 2020, Andover Advertiser on 3rd July 2020 and within the Romsey Advertiser which was also 3rd July 2020. The statutory notice provided details of the representation procedure and how to access the document and relevant supporting documents.

4.5 The COVID-19 global pandemic arose at the beginning of 2020 and was taking place during the time of this public consultation. The country went into a national lockdown on 23 March 2020 and due to Covid-19 restrictions, we had to adapt our consultation methods. Reflecting this, in June 2020, the Council's Cabinet resolved to revise an Addendum to the Statement of Community Involvement. This relates to temporary revised consultation arrangements that would apply whilst coronavirus restrictions are in place. The addendum⁸ is available alongside the SCI and sets out the revised arrangements.

4.6 To take account of this, and in accordance with the SCI Addendum, we were unable to provide hard copies for reference purposes at council offices and local libraries, attend face to face meetings and hold exhibitions and workshops. We undertook additional consultation methods such as use of social media and use of digital and virtual tools (where possible).

4.7 As explained in Chapter 3, Government Regulations require us to ensure that certain organisations (known as Specific Consultation Bodies) are consulted at key stages during the preparation of the Local Plan. Consultation was undertaken in accordance with this and the SCI, a full list of those bodies that were sent notification of public consultation can be found within Appendix 1.

4.8 Responses to the consultation could be received by post or via email. Officers were on-hand during normal working hours throughout the consultation to respond to queries via phone and email and assist respondents in any way necessary.

4.9 There were approximately 156 representations to the Refined Issues and Options consultation including from parish councils, stakeholders, members of the public, community organisations and other interested parties. Officers reviewed all responses and summarised the issues raised providing response

⁸ Available at: [pp1_1_200617_SCI_Addendum.pdf](#)

to each comment raised. A Schedule of Comments has been published at Appendix 2 to this Statement.

- 4.10 The outcome of the consultation has informed the next draft of the Local Plan Regulation 18, Stage 1, which sets out the Local Plan vision, objectives and spatial strategy for the Borough, along with a number of strategic policies. The key issues listed in Chapter 5 have been used to inform this next stage of the Local Plan.

5. Main Issues Raised from Refined Issues and Options

- 5.1 All the representations received from the Refined Issues and Options stage of consultation have been summarised, considered and, taken into account in drafting the next stage of the Local Plan. All representations made are available to view on the Council's website⁹.
- 5.2 This section sets out the main issues that have been raised through the Refined Issues and Options public consultation. Regulation 18(3) of the Town and Country Planning (Local Planning) (England) Regulations 2012, requires this for statutory stages. It states that the local planning authority must take into account any representations received from consultation when preparing the plan.
- 5.3 We have structured the main issues around the broad structure of the Refined Issues and Options document.

General

- The proposed Local Plan timetable seems protracted. The Plan should be prepared and adopted sooner than the timetable set out to ensure Test Valley has an up-to-date plan.
- Support for the key theme regarding climate change mitigation and resilience being central to the Local Plan.
- Tackling climate change needs to be addressed by Local Plan policies, in order to help reduce greenhouse gas emissions and to increase resilience to flooding and climate change (examples given include nature-based solutions and planting, higher standards of thermal and energy efficiency in building, renewable energy generation, support for sustainable transport, increased electric vehicle charging, and reducing private car usage).
- Welcome the viability and vitality of the Borough's town centres being a priority for the Local Plan.

Living in Test Valley

- Support for meeting our local housing need in full
- General support for using standard method to determine housing requirement

⁹ These will be available in February.

- We need to take account of cross-boundary issues and consider any unmet housing need from neighbouring authorities and South Hampshire sub-region
- Support for housing provision in villages and wider distribution of development
- Overall support for maintaining HMAs, with support for maintaining two HMAs based on parishes. However, there were mixed comments on boundary division between the HMAs
- Support for settlement hierarchy and tiered approach to settlements, but mixed comments on tiers, settlements within them and implications for spatial strategy and distribution of development
- Support for settlement boundaries
- Support for provision of affordable housing to meet local needs by type, affordability and across the Borough
- Set specific policy provision for self-build and custom build housing, but mixed comments on how this should be formulated including that it should not be more permissive or include additional burdens to general housing

Working in Test Valley

- Importance of town centres moving away from retail focus in order to adapt but also need to have affordable units to encourage new businesses to create a unique selling point for towns in the Borough.
- Need to encourage opportunities for people to live closer to where they work including new high-density homes within town centre locations and opportunities for mixed uses on new development.
- Need to increase sustainability by encouraging an increase in the amount of walking and cycling between the places where people live and where they work/spend leisure time.
- More needs to be done to promote existing and encourage new wide ranging, innovative tourism within Test Valley including the expansion on pub/B&B/hotel offering. But also need to acknowledge potential negative impacts of increased visitor numbers.
- Need to take account of the environmental impact of economic growth including increased levels of traffic (lorries etc.) economic growth needs to be led by appropriate types of employment which will also grow and support communities which includes supporting new innovative, independent start-up businesses.

- A strong rural economy is considered incredibly important and should be supported, including through re-use of buildings in rural areas (barns)

Enjoying Test Valley

- The importance of the consideration of climate change (mitigation, adaptation & resilience) was highlighted, including in relation to achieving net zero carbon development. There were differing views on the approach to be taken on this matter.
- Importance of our natural environment, including chalk rivers and streams, and water meadows, and the Test Valley landscape (including designated landscapes).
- Secure biodiversity net gain, and ensure ecological networks are not compromised. Promote natural capital considerations and nature-based approaches.
- Need to consider potential impacts on habitats and species, including those subject to designations. This includes in relation to increased nutrient levels in water bodies.
- Development should be in keeping with local character.
- Support for retaining local gaps as a means of avoiding coalescence of settlements / helping to retain identity of settlements (especially rural settlements / villages)
- Importance of access to green space & other open space.
- Encourage the conservation and enhancement of green infrastructure assets and the wider green infrastructure network, recognising opportunities for multiple functions of such provisions.
- Support for additional tree planting, which could include policies on tree canopy cover.
- Water management is an important issue that needs to be appropriately addressed in the Local Plan, including availability of water resources, water quality, flood risk, and adequacy of infrastructure.
- Importance of a positive strategy for the historic environment throughout the whole local plan, not just considered as a standalone topic. This includes strategic policy on the historic environment, supported by development management policies.
- Air quality needs to be considered, including in terms of impacts on ecology.

- Importance of a proportionate and robust evidence base.

Infrastructure and Community Facilities

- Provision of essential infrastructure to support development is crucial including community facilities, green spaces and infrastructure to support sustainable lifestyles such as pedestrian and cycle networks, public transport and electric vehicle charging points.
- Encourage the use of health modelling tools such as London Health Urban Development Unit, to inform the scale and type of health infrastructure.
- Development should be located and designed to facilitate use of sustainable transport modes and reduce private car journeys for short trips. Getting to key destinations such as town centres or educational facilities should be safe, convenient and accessible, particularly for new development on the edge of towns.
- Avoid material increase on the Strategic Road Network resulting from development unless there are mitigation methods in place.
- Encourage links to long distance cycling and walking routes to enable walking and cycling movement between towns.
- Support for more cycling and pedestrian networks that are segregated from vehicular traffic for the purposes of safety and air quality.
- Important to invest in affordable and reliable public transport including accurate information systems, particularly in rural areas, where there is greater reliance on private car. Reference to supporting rural communities with schemes such as car sharing and on-demand travel.
- Support integration of public transport through the provision of multi-modal hubs.
- Car parking standards in new developments need to be considered to prevent congestions associated with street parking and effects on pedestrians and cyclists.
- Public car parking and associated infrastructure such as electric vehicle charging points should be made more widely available.
- With more working from home, there is a need for better broadband speeds across the Borough.

- Need to understand how developer contributions such as CIL can be used to support infrastructure.
- Support the approach to jointly prepared evidence base relating to transport infrastructure.

6. Next Steps

- 6.1 Our approach to preparing the next Local Plan builds upon the Council's commitment to greater engagement and partnership working with local communities. The timetable for the preparation of the Local Plan, in particular a two-stage process for Regulation 18, enables an increased iterative process to be undertaken. We are seeking views on our strategic matters within the Regulation 18 Stage 1 Local Plan, which will feed into refining these proposals. This will be considered and fed into our draft detailed matters e.g. site allocations and development management policies. Regulation 18 Stage 2 Local Plan will therefore be a full Regulation 18 document.
- 6.2 The public consultation will be undertaken in accordance with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations (as amended) 2012.
- 6.3 Public consultation on the Local Plan 2040 Regulation 18 Stage 1 will take place for an 8-week period between Friday 11th February and noon on Friday 8th April during which representations can be made.
- 6.4 The Council is consulting the bodies listed below for their views on the document. It is considered that this takes account of the Council's Statement of Community Involvement in Planning 2017 and the Town and Country Planning (Local Development) (England) Regulations 2012 (as amended) [S.I.2012 No.767].
- Specific Consultation Bodies: These include neighbouring planning authorities¹⁰, Test Valley Councillors, Parish Councils within Test Valley, Environment Agency, utility companies etc.
 - Individuals, groups, stakeholders and statutory consultees as set out on our Keep Informed Database (see paragraph 3.5. above)
- 6.5 Representations should either be:
- Sent in writing to Planning Policy and Economic Development Service, Test Valley Borough Council, Beech Hurst, Weyhill Road, ANDOVER, Hampshire, SP10 3AJ;
or
 - Emailed planningpolicy@testvalley.gov.uk
or
 - Using the consultation survey on our website www.testvalley.gov.uk/localplan2040

¹⁰ Neighbouring planning authorities: Basingstoke & Deane Borough Council, Eastleigh Borough Council, New Forest District Council, New Forest National Park Authority, Winchester City Council, Southampton City Council, West Berkshire Council & Wiltshire Council.

6.6 Relevant Supporting Documents

- Test Valley Borough Revised Local Plan DPD 2011-2029
- National Planning Policy Framework (NPPF)
- Evidence Base – for Local Development Framework
- Sustainability Appraisal Scoping Report 2020
- Draft Local Plan Regulation 18 Stage 1 Sustainability Appraisal February 2022
- Draft Local Plan Regulation 18 Stage 1 Equalities Impact Assessment February 2022
- Draft Local Plan Regulation 18 Stage 1 Health Impact Assessment February 2022

6.7 We will take account of all representations made during the Regulation 18 Stage 1 public consultation. Responses will be used to inform the next stage of the Local Plan. We will update this Statement at the next stage summarising the main issues received during public consultation and how this has been taken into account.

Appendices

Appendix 1:

List of Consultation Bodies

- Test Valley Councillors
- Parish Councils within Test Valley

- A2dominion
- Advisory Council for the Education of Romany & other Travellers (ACERT)
- Age UK
- Allington Parish Council
- Ampfield Conservation Trust
- Andover & District Disability Forum
- Andover Action Committee for Disabled People
- Andover Neighbourcare
- Andover Ramblers
- Andover Shopmobility
- Andover Town Centre Manager
- Andover Wheelers
- Ashmansworth Parish Council
- Aster Group
- BAA Safeguarding Team
- Basingstoke and Deane Borough Council
- Bassett Ward
- Bluestar Bus Company
- Bournemouth Water
- Braishfield Parish Council
- British Gas
- British Horse Society
- British Telecommunications plc
- Bulford Parish Council
- Business Link Wessex
- Buttermere Parish Meeting
- Campaign for Real Ale Ltd
- Campaign to Protect Rural England (Test Valley Branch)
- Chandlers Ford Parish Council
- Chandlers Ford Ward
- Chilworth Residents Association
- Cholderton & District Water Company
- Cholderton Parish Meeting
- Church Commissioners for England
- Churches Together - Hampshire and Isle of Wight
- Chute Forest Parish Council
- Chute Parish Council
- Combe Parish Council

- Community Action Hampshire
- Community Groups in Test Valley
- Copythorne Parish Council
- Country Land and Business Association
- County Councillors
- Coxford Ward
- Crawley Parish Council
- Cycling UK
- Cyclists' Touring Club, Andover Branch
- Cyclists' Touring Club, Romsey Branch
- Defence Estates, Ministry of Defence
- Defence Infrastructure Organisation - DE Operations South
- Defence Training Estate - SPTA
- DEFRA
