

We would like to express our reservations about the extent and potential locations for additional housing under the 2040 Draft Local Plans. These can be summarised as follows:

- We do not believe that the infrastructure to support the additional population created by the new housing and so any new development should be proportionate
- A referendum was undertaken two years ago to agree the village boundaries and the proposed new developments takes no account of these
- We would suggest that a single site is used for new development

Kind Regards  
Richard Turner
