Please use this comment box to make any general comments you may have

I would like to ensure that all the following are being taken into consideration before any planning is even thought about.

1. Doctors surgery availability as it is difficult to get any appointments or register with a GP
2. Dentists as above
3. School - currently in Grateley the places are being taken by children from Wiltshire due to their lack of places, locals can no longer register their children to attend.
4. Future planning for the more mature members of our community as currently we have no options to stay within a village .
5. Planning and sustainability is not just about the young population, by a little more thought for our elderly a natural progression of available housing will no doubt come on to the market once they are considered.
5. The roads currently are not maintained, further use and construction traffic will make this impossible to future proof.
6. i am aware there is always a need for development but it is not just about houses, the full package which i have touched on needs consideration before any building takes place.
7. We currently have no shop, no public house and a train station which drains more of our funds than should due to parking by the users anywhere but the carpark provided, leaving the road way blocked for two cars to pass or anyone to walk safely from one end of the village to the other.
