Dear Sir ,

I find it difficult to believe that any responsible public representatives can approve a plan which includes decimating a green field site .

The impact on local services will be immeasurably bad and the impact on local roads will be a disaster, given that it is painful to use the local roads at any time but particularly at rush hour and school times .

We are constantly being told that we need to look after the environment and nature , difficult to understand how this plan is compatible with nature or the environment.

Politicians who have approved this plan should think again ! Urgently Regards Howard Gleadow
