## Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.\*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

These proposals are beyond impractical. The amount of traffic around our area is already excessive, adding 2000 vehicles would make driving anywhere virtually impossible at rush hour times! With all the traffic from the business park on Templars Way combined with Industrial estate traffic and general through-traffic means absolute overload already. Also there are many other factors such as water pressure, flooding, health care provision etc which would be even worse than they currently are in the area. It simply isn't a practical location for such a vast development.
