Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

The road infrastructure and local facilities would be hugely impacted by the proposed plan. The increase in traffic would be challenging at all times, not just during rush hour or at weekends. The area would be affected from Valley Park right up Templar's Way and Bournemouth Road through to Winchester Road - key roads linking Southampton to Winchester and beyond, which are as relevant now as when the roads would have been first made. This is also a key bus route linking the cities. The disruption would make traffic movement a challenge for some miles and I can't see how it could have a positive impact on the community. The infrastructure is not built for this plan and goes against the original plans for a hamlet of Eastleigh.
