Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

I have viewed the plan and would like to state that I think it is not appropriate given that the area is already well populated and further housing will provide multiple problems for all. The green space is vital for our climate in many ways. The land is very heavy clay and there is a danger of more flooding in the area for all. The local gap should be kept in place to provide a breathing space for all.
