## Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.\*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

I object to the building of 1070 new houses in the plan. It is on essential green space. The local area cannot cope with at least double that number of cars and people. The roads are terrible now, poor drainage and very busy and air quality is poor. The infrastructure cannot cope with existing population in the area. The NHS services cannot cope and it is impossible to get an NHS dentist now without this number of additional people. Promises of new doctors surgeries and schools etc never materialise and should be put in place before the houses are built. It is a travesty that green space is ruined when cities with brown space could and should be used. I say this is unacceptable use of essential green areas used for walking and we cannot cope in this area with anymore people and cars.
