Part B: Your Comments

Please use the boxes below to state your comments. This includes one box for general comments and another for specific comments related to an area of the Local Plan.

Insert any general comments you may have that do not relate to a specific paragraph number or policy in the general comments box below.

If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording.

If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

General
<p>Overall, I have concerns that the density of the new housing proposed will cause problems of access for cars and other vehicles. The recent developments in Andover have access roads that are too narrow and often lined with cars as there is insufficient parking for residents and visitors provided. This also adversely affects safety as room to manoeuvre around the estates is insufficient. The new developments should learn from this and plan the density of the housing accordingly. So fewer houses and more road space/parking spaces would be better.</p> <p>In the Local Plan for the centre of Andover I am very worried about the new theatre plan. 'The Lights' is well attended and great hub for a town like Andover. The new plan sees it double in capacity and move location. There is likely to be a problem in that it currently can be filled but if increased from 200 to 400 seating capacity it is likely that it will be half empty for a large proportion of the time so not generating sufficient revenue to cover the additional costs of a bigger venue. The thoughts of putting it the centre of town have merit but don't meet the value for money requirement when spending with tax payer revenue. There also doesn't seem to a coherent plan for what is going to be done with the current venue if The Lights moves. I know the current venue it is leased from the College but as both they and council are government owned, so funded from the same source, this is not really relevant so long as it is planned correctly and funding streams adjusted accordingly.</p>

For specific comments, please make it clear which paragraph, policy or matter your comments relate to where possible. Please use the box below.
