I object to the proposed development incorporating Velmore Farm.

1. The traffic around castle Lane and templars way is unsafe for walkers runners and cyclists and the roads are flooded continuously with no solutions to these existing problems

2 The persistent problems on M3/M27 junction cause the whole of Chandlers Ford to become a car park and gridlocked with public transport unaffordable and unreliable - I am unable to get out of my street in many occasions due to traffic jams.

3 The roads are poorly maintained around Valley Park and building sites and development and increasing traffic would be impossible for existing local residents to contend with

4 There are not enough services or GP's as it is never mind to support additional development

5. We have as a community in Chandlers Ford become nothing more than a housing development and a car park for local industrial estates and this will be worse if any additional development is approved.
