## Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.\*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

The UK has big problems with a lack of housing, a lack of energy infrastructure, a lack of reservoirs, a lack of infrastructure, and too much low-density housing sprawl. This is causing economic problems that hurt everyone.

What we need is to invest in building dense walkable mixed-use neighbourhoods. We need more apartment buildings, more mixed-use buildings, and more infrastructure of all kinds.

Typically, the planning process has worked to block this, but I hope that we can make some big investments in our very underdeveloped cities and towns.

---

## Q8

Insert any specific comments in the general comments box below, indicating which paragraph, policy or matter your comments relate to where possible.\*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording.

The number of homes being proposed for Upton Lane is unambitious. If we are serious about addressing the housing crisis, we should be committing to building a greater quantity of homes through higher density housing. I do like that it appears to be mixed-use development though.
