Dear all, I like many other local residence our deeply concerned and oppose the local plan for the introduction of over 1000 new homes on what is already a very populated area. The Velmore Farm location is certainly not ideal, it will cause chaos on the local roads. The Castle lane and Templars way routes are congested on the rush hour tomes and even more so when there are issues with the M3 or M27. The route in prone to flooding and having the development will increase this also. The local doctors already struggle to maintain a services with the number of families in the local area, the addition of possibly 2000 plus extra patients would make it very difficult to manage a service. We were always told that there would be green field gaps between Valley Park and North Baddesley with this development it would almost be gone.

Kind regards

Dean Bailey

Local resident of Valley Park since 1994.
