Note of Objection !!!!!!!!!!!!!!!!!!!!!!!!!!!!!

On seeing the plans for Land development at Upton lane for Commercial & Industrial use I am aghast at the current proposals. I have lived in Rownhams and Nursling village all my life and the contempt for the wildlife and natural beauty that's been destroyed to date is devastating. The village is being chipped away and TVBC seem only interested in monetary gains at the cost of local's. Change started with Adanac park bulldozing through a vast Eco/wildlife habitat, New housing around Nursling school raised even more concerns and were then ignored, another tragedy for the village local wildlife.

TVBC must stop and rethink there approach as the Village does not want or need further housing or industrial units. No thought has been put in place regarding potential traffic congestion and lack of infrastructure for dentists, doctors and school places etc. The surrounding roads and schooling are all bursting at the seems currently and cannot support this proposal for this over development.

We have seen our taxes and cost of living going through the roof but our standard of living in this village is being eroded and I say enough !

People living in this village want TVBC to support more trees and wildlife to live without risk to habitat, local deer and bird life or the lucky few that have found sanctuary in and around the last remaining Upton woodland would surely perish if current proposals are agreed. we do not wany additional air, light and noise pollution from increased traffic warehousing and housing.

Please do not destroy the little of the natural green wildlife area that's left.
