Subject: Objections to Velmore Farm, Chandlers Ford, Proposed Development
Date: 01 April 2024 16:17:49

Caution: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

This plan lacks the necessary infrastructure to support the addition of this number of houses to our area. Issues which pose a problem are as follows;

- No additional Dr's surgery, putting strain on already overloaded local surgeries.
- A lack of additional secondary school places, which schools will need to accommodate extra pupils?
- A single entrance onto Templars Way roundabout. This will make an already busy road, ridiculously congested especially at rush hour times.
- The roundabout on Templars Way, where the proposed entry road is to be, already floods after a small amount of rain. This is only going to be exacerbated by the run off of rainwater from concreting over the hills on Velmore Farm.
- There only seems to be an area of green space preserved between Chilworth and the development. Would it not be more balanced and fair to create a gap between Templars Way and the new houses, with a reduced area between it and Chilworth?
- Could an extra entrance be added connected to either the A27 or Botley Road to diffuse the build up of traffic created by having one way in and out?

Please take note of my objection to this development and consider the points raised when determining whether the project should proceed.

Thank you very much,

Mrs C Roberts
