Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

This is an excellent proposal, there is a strong demand for more local houses. The proposal is in a viable location. There are not genuine issues against this development other than the electricity pylons which can easily be diverted. The usual objections about flooding and traffic are fake arguments with zero substance to back them up. Typically the objectors are older selfish people who already have their own homes and are totally inconsiderate of the younger generation who require desperate housing. These nimbies have to remind themselves that somebody once had to build the house which they now happily live in, I doubt very much these inconsiderate individuals were objecting to those developments at the time!
