## Q7

Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.\*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

I would like to comment on the Local Draft Plan 2040.

The town cannot support that number of new developments as it is the services such as doctors and dentists are well over subscribed. The roads round the schools are a nightmare when it comes to the start and finish of school and as for the town that needs to be sorted out before any new houses are contemplated!

for the area named Land at Bere Hill, South East Andover which runs right along the length of the Ladies Walk to the A303 by-pass I would like to say the following.

1/ Why take productive arable land out of production? As a country we should not be importing grain from other places in the world and so increasing our carbon footprint.

2/ The current hedgerows in that area should be preserved to protect the wildlife that depends on it for their survival.

3/ I would like to know how you plan to protect the bats, skylarks nesting sites and all the other wildlife. Are you going to catch the rabbits and rehome them elsewhere?

4/ The Ladies Walk corridor need a very, very large buffer zone if any houses are built in the area. This should include mature trees and the correct hedgerow species. It should also contain wildflower open areas but away from the Ladies Walk for pollinators.

5/ I cannot understand why the brown field sites are not being used for building rather than green sites and the old walworth football pitches had just lain empty when they could have been incorporated into Picket Piece. These days people are working from home and large office blocks are not required!
