Insert any general comments that do not relate to a specific paragraph number or policy in the general comments box below.*If you are suggesting a change is needed to the draft Local Plan or supporting document, it would be helpful if you could include suggested revised wording. If you are commenting on a document supporting the draft Local Plan (such as a topic paper, or the Sustainability Appraisal), please indicate so.

I am commenting on the local plan 2040, suggesting houses being built to the east of Ludgershall, but fall within Kimpton parish council land.

Firstly I'd like to know more about how this land was identified as suitable for development? As a resident of Kimpton this would increase the population of the parish by many times, putting a lot of strain on local resources of the parish. Secondly, this would increase the road use hugely on roads that are already full of potholes, narrow, susceptible to flooding and heavily used at various times of day. The road closures due to flooding on the roads surrounding the suggested development have been many all winter, so adding more traffic would be terrible. Thirdly, I understand that Wiltshire council have proposed a development to the west of Ludgershall, which means 2 big developments either side of a very small town, putting a lot of strain on local resources. I understand that local schools are also oversubscribed in the area at secondary stage, so parents and students would have to travel further afield to go to school, further adding to the traffic on the aforementioned under developed roads.

The state of the roads in the area and lack of infrastructure to support a new development is a big concern, and I feel would affect me hugely as a resident of Kimpton parish in a very negative way.
