**Subject:** **Opposition of Local Plan 2040**

Dear sir/Madam ,

I am writing to express my strong opposition to the draft local valley park plan 2040, primarily due to concerns regarding its potential impacts on traffic, local health services, and inadequate infrastructure planning.

The proposed plan raises significant alarm regarding its potential exacerbation of traffic congestion in our community. Increased traffic not only poses risks to public safety but also threatens to impede access to vital local health services, such as hospitals , GP Surgeries and clinics. This could have dire consequences for residents requiring urgent medical attention and may result in prolonged emergency response times, jeopardizing lives in critical situations.

Furthermore, the plan fails to adequately address existing infrastructure problems while disregarding the emergence of new issues, such as surface water flooding. Neglecting to address these pressing concerns could lead to severe disruptions to daily life, property damage, and heightened health risks due to waterborne diseases and contamination. I urge you to reconsider the proposed plan and prioritize measures that mitigate traffic congestion, safeguard access to local health services, and ensure comprehensive infrastructure improvements that address both current deficiencies and anticipated challenges, including surface water flooding.

Also overhead Electric Pylons are across the land at Velmore Farm and houses should NOT be built under or close to Pylons .

I respectfully request that further assessments and community consultations be conducted to develop a more inclusive and sustainable plan that truly serves the best interests of our community. Thank you for considering my concerns.

Kind regards  
Mr & Mrs Chahal
