

12 November 2026

I object to this stopping up order because of

It will create more traffic in West Street (lorries and buses) causing more pollution and noise along West Street and past my dwelling in Chantry Lodge.

The two way traffic will be more dangerous for pedestrians young and old.

It will cause a busy cul de sac making access and parking for the emergency services more difficult and dangerous.

Dropping off for the sports centre and academy will now be on the busy Western Avenue with a longer walk over an old wooden bridge making it more dangerous.

I am not against the proposed river park which can still be achieved with a vehicle exit along an existing bus parking lane achieving TVBC aim at a vastly reduced cost, they have already indicated the scheme is costing more than the original budget. We have had meetings with TVBC who have refused to even consider our alternative plan.
