I am affected by the proposed Stopping up Order by Test Valley Borough Council and object on the following grounds:

West Street - by the increased in traffic and that this will be two-way traffic, making it more difficult for me to cross the road. Not to mention the added pollution and noise, which will spoil my enjoyment of my latter years. As I try to exercise by going to the shops on a regular basis.

Western Avenue - taking away this carriage way, with the expected increase in local housing, will increase the amount of traffic holdups. The additional right hand turns are also more dangerous than the present system, which I think would concern health and safety.
