

22 April 2026

**For the attention of Juliet Bradbury; Ref: NATTRAN/SE/5247/6126 Proposed
Stopping up Order of Part Western Avenue and Stopping up West Street, Andover**

I wish to remain in opposition and maintain my objection to the above proposed plan to create a new traffic flow as part of the Andover Regeneration project. My principal objection is that the intended plan to make West Street a two-way traffic system will bring more traffic past Chantry Lodge creating pollution and noise disturbance, and compromise pedestrian safety while crossing this road and walking on reduced pavement space.

This objection does not apply to the proposed park area for redevelopment of the Anton River.

Yours faithfully

Roger & Barbara-Ann Turner
