

29 May 2026

I would like to re-confirm my objections as copied below.

Dear Mr Crass,

I am affected by the proposed Stopping Order by Test Valley Borough Council and object on the following grounds:

As a resident of Chantry Lodge I feel my environment and wellbeing will change considerably.

Crossing the road using walking aids is difficult as it is, looking both ways and being stuck in the middle of the road with buses and large trucks passing on both sides of me will be frightening. The pavement will be narrower so as a pedestrian I will be nearer the passing traffic and the air I will be breathing will be thick with fumes. The development of the riverside park can surely be done without closing one half of the dual carriageway of the A3057.
