Manufactured in Andover

Bowyer Engineering
14 May 2020
2.00pm

Manufactured in Andover is a group of diverse manufacturing businesses with broad interests from food to engineering but with many common interests. The group aims to collaborate by sharing best practice and training opportunities to improve performance

The groups roots began in 2016 with MRT Castings, Pre-formed Lined Products and Perfect Bore focussing on lean manufacturing and has now expanded to develop its framework. The group meets regularly with local Andover manufacturing businesses and always welcomes new members.

Manufactured in Andover is supported by Test Valley Borough Council and EM3 Growth Hub
