BRAISHFIELD PARISH COUNCIL COMMENTS

Test Valley Borough Council

Issues and Options consultation for the next Local Plan

Braishfield Parish Council has considered the above consultation and makes the following comments:

#	Question	Comment
1	What is good about living and/or working in Test Valley?	High quality of surroundings: Living in rural communities with easy access to commercial centres (or living in pleasant towns with easy access to countryside)
2	What could be improved about living and/or working in Test Valley?	Local healthcare provision, including access; traffic congestion and excessive use of country roads for non-local destinations.
3	What should the Local Plan aspirations be for the next 20 years?	Give local people more influence over the local plan over next 20 years
4	Should the Local Plan's housing requirement be consistent with Governments standard methodology? Do you have any evidence to	No – we should use a local plan, not government methods. Figures are hard to understand: 588 dwellings per year implies 1370 people per
	support your view?	year at current density, but projected population increase = 570 people per year
5	Should the Local Plan increase its housing requirement to help support economic growth? If yes, do you have any evidence to support this?	No clear evidence to support this. Housing should result from economic growth not be used as an instrument to encourage it.
6	Do you think the HMA boundary is broadly right? If not, how and why do you think it should be changed?	Yes.
7	Are there any other approaches to distributing development across the Borough that we should consider?	1) No 2) Factor in village infrastructure (school, shop, pub, club, churches, etc) 3) A purely numerical approach ignores issues of (a) availability of services, particularly public transport, (b) overuse of country roads, (c) proximity to employment. Some method of taking account of those factors should be devised.
8	Do you have any comments on the approaches suggested above?	Need to get clarity on the total number of houses expected for TVBC

#	Question	Comment
9	How should the settlement	Current process encourages building in gardens
_	boundaries be defined in the	and backland development – not a good idea.
	next Local Plan?	and backland development – not a good idea.
10	Do you think we should	No change
	continue with seeking up to	No change
	40% of new homes to be	
	affordable, or should we	
	change	
	the percentage?	
11	What should the trigger be for	Smaller percentage of affordable on smaller
	seeking affordable housing?	sites?
12	Should we allow market	No
	housing	
	on rural affordable exception	
	sites?	
13	How should we meet the	Self build is a bad deal for a village – no
_	requirement for Self Build	contribution is made to village infrastructure.
	plots?	Self build should pay CILs like any other.
	Should it be as part of sites	and the drap classificating outlets.
	over	Experience also shows that the build process
	a certain threshold or separate	takes much longer and causes more nuisance
	sites?	as a result.
14	Should we establish a policy	No – this policy simply seems to serve the
İ	that covers dwellings in the	super-rich, who don't appear to add much to
	countryside which are of	the local community.
	exceptional quality?	•
15	Should the Council change	Yes - encourage housing for "downsizing" for
	its approach and set out a	the elderly – including bungalows
	requirement that certain sites	
	should provide for the needs of	
	such groups as the elderly?	
16	Should we include a policy	A policy is a good idea – else it is likely that the
	that requires a mix and type of	majority of "market" homes will be large &
	housing, or should the housing	expensive ones.
	market inform what mix and	
	type of housing to build?	
17	Should we restrict the size of	No change
	replacements and extensions	
	to	
	dwellings in the countryside to	
	keep a range of dwellings?	
18	Should the Council establish	Yes: Higher densities could destroy the
	density standards in the Local	character of Braishfield.
	Plan?	
19	Do you think we should	Yes: Unclear what this means – it is not
	establish internal space	discussed in the document.
	standards for future homes?	

BRAISHFIELD PARISH COUNCIL COMMENTS (continued)

Test Valley Borough Council - Issues and Options consultation for the next Local Plan

#	Question	Comment
20	Do you think we should establish standards for accessible, adaptable and wheelchair user dwellings?	Yes
21	Should the Local Plan set out a definition of rural worker? And if so what should it include?	Caution is needed here – this approach has been abused in the past.
22	How do you think we should best meet Gypsy, Traveller and Travelling Showpeople's needs?	Consultation with localities
23	Do you agree that we should have a specific policy on health and wellbeing? What sort of issues do you think it should cover?	Need policies and approaches to encourage all (and especially children) to be active. Need to have a plan that goes well beyond "public open spaces" – there is a great need for easily accessible indoor sports and recreation facilities. Current policy is far too narrow, especially for an elderly population. Restriction of food types to be sold in food shops seems unlikely to have significant effect but may be worth trying.
24	Should some types of facilities and services be given more protection than others?	Yes – the Braishfield Pantry is a great example of what is required – support such be provided for community enterprises of this kind
25	Should we continue to protect all existing community facilities and services?	Yes
26	Should we allocate more land to enable more choice and flexibility to the market?	Yes – the amount of land for businesses is very limited Need concern over effects on traffic
27	What are your views on promoting smaller workspaces within the Borough?	Good availability of modern small premises is important. Fast broadband is very important Need to be concerned about traffic impacts
28	What provisions or controls should be made relating to people working from home?	Home working which does not generate either more traffic or on-street parking is unobjectionable, and should be encouraged if it reduces vehicle movements. Need care regarding the kind of work at home: professional, clerical & office generally OK, but work involving noise, traffic, etc undesirable in domestic environs.

BRAISHFIELD PARISH COUNCIL COMMENTS (continued)

Test Valley Borough Council - Issues and Options consultation for the next Local Plan

#	Question	Comment
29	Should the Council continue to encourage retail uses within primary frontages or should a more flexible approach be taken with a greater range of uses being allowed?	Retail use should be preserved as far as possible, but it seems idle to suggest this when business rates are decimating town-centre retail outlets. TVBC & HCC continue to decrease the amount of parking in Romsey town centre – this drives potential shoppers away since most of them need to use cars to get there.
30	How should we best continue seeking apprenticeships?	Enterprises require to be of a minimum size to provide apprenticeships, which runs contrary to the trend towards smaller businesses. We have no constructive suggestions.
31	What should be included in any tourism policy in the next local plan?	More places for tourists to stay. Romsey is pitifully short of hotel & B&B accommodation. There is a need for a hotel of the "Premier Inn" class, for example. More attention to road access and parking near to tourist centres.
32	Should there be measures to support tourism proposals, and if so, what?	Allocate site(s), but keep developments in character with the area
33	Should we continue to retain the principle of Local Gaps? Should we define specific boundaries or a more general policy which aims to avoid coalescence?	Yes.
34	Should the Local Plan identify and designate Local Areas of Green Space or should this be undertaken via Neighbourhood Plans?	Yes because not every parish can or will produce a Neighbourhood Plan, leaving some Gaps unidentified. Best to work with local people on this, in general.
35	Should the next Local Plan continue to promote water efficiency from new developments?	Yes, but it is unclear what this means.
36	Should we identify suitable sites for renewable energy, including onshore wind, in the Local Plan?	Dubious. Local "solar farm" schemes have occupied prime farmland – this makes no sense. Onshore wind is highly controversial and with good reasons. Local plan should require all new housing to have solar electricity & solar hot water.

BRAISHFIELD PARISH COUNCIL COMMENTS (continued)
